THE BUILDING DESCRIBED.

City Councils in Session.

TO-DAY'S CELEBRATION.

Yesterday the new Municipal Hall on Smithfield street was formally inaugurated with appropriate ceremonies. The inauguration included the removal of the two bodies of City Councils from their old meeting place in the Diamond City Hall, and a meeting by them, for the transaction of city business. In addition to this, the most important item in the day's proceedings, a very excellent programme had been prepared for the occasion. The day opened threateningly. Heaven's artillery fired a salute, which far distanced in volume any which might have been improvised by human ingenuity, and the mighty rain baptised the new building more effectually than any device of the city fathers could have done. But notwithstanding the eccentricities of Jupiter Pluvius and the pealing of the thunder, the public interest in the opening was not dampened. From an early hour in the morning until well nigh midnight the building was crowded by an inquisitive public and the street thronged by those anxious to recognize the importance of the occasion.

COMMENCING.

At 6 o'clock in the morning the fire alarm bell in the belfry struck 1758, commemorative of the French evacuation of Fort Duquesne. The Great Western Band, stationed on the balcony of the Hall, immediately thereafter played the Marseilles Hymn. At nine o'clock the bell again struck 1864, commemorating the building of the redoubt by the English. The band followed with "God Save the Queen." At fifteen minutes past nine o'clock the Great Western Band, escorted by twelve corner policemen, marched to old City Hall, to take the head of the procession from the old chambers to the new. In the Diamond a large crowd had already collected, and it was necessary for the policemen stationed there, to exercise much firmness in keeping those back who did not wear the badges furnished by the authorities as passes to the old building. Arrived inside, it was found that the City Hall Commissioners, Mayor Blackmore, Mayor Callow, ex-Mayor Brush, Burgess Dressel, of Birmingham, and others who were to participate, were there, ready to take the places assigned them in the line.

FAREWELL TO THE OLD HALL.

A joint session of Councils was then held in the Common Council chamber.

On motion of Mr. Gazzam, Dr. A. Arthurs was called to the chair.

On motion the Clerk read the programme of the day's proceedings, as published.

Mr. Darlington moved as an amendment that all the living Ex-Mayors of the city be invited to participate in the exercises. Carried unanimously.

Mr. Gazzam (Mr. Oliver having arrived and assumed the chair) offered the following:

Whereas, We are about to leave our old chambers for those in the new City Hall, therefore,

Resolved, That in bidding farewell to our old Council Chambers, it is with mixed feelings of regret and joy; sorrow in leaving the old building, endeared to us by many pleasant associations, and pleasure that our city has grown so great and wealthy under the fostering care of our city fathers that we can now afford such a magnificent Municipal Hall as we are about to take possession of. Adopted unanimously.

Burgess Dressel, of East Birmingham, accompanied by a full delegation of Councilmen, came in to participate in the proceedings, and were furnished with badges.

On account of the heavy rain that was falling, it was suggested that the time of moving be postponed until half-past ten o'clock. The suggestion was adopted.

The Chairman of the Committee of Arrangements read the order of the procession, and each delegation, as its name was called, passed out.

MOVING TO THE NEW HALL.

At the hour appointed, those who were to form the procession formed in line by twos, and moved out into the street, taking up the line of march to the new Hall in the following order:

Escort of twelve Policemen.
Great Western Band.
City Hall Commission and Architect.
Mayors Blackmore and Callow, Ex-Mayor Brush and Burgess Dressell, of East Birmingham.
Clerk and Chief Police.
President of Councils.
Clerks and Pages.
Members of Select Councils.
Members of Common Council.
Members of Council of South Side.
Controller and Treasurer.
City Attorney and City Engineer.
Engineer Corps.
Clerks in City Offices and City Officials.
Street and Road Commissioners.

AT MUNICIPAL HALL.

The head of the procession having reached the new hall, a halt was ordered while the band passed in and in a few moments reappeared on the balcony in front where they continued, playing. The doors of the front entrance were then thrown open and line moved on—the police escort dividing and fronting on each side of the main entrance as the column passed through. On the palisade or balcony of the first floor, there had assembled, Col. Phillips, Col. Steele and other members of the Commission, together with Mayor Blackmore, ex-Mayors Brush and Burgess, several clergymen, orators of the occasion and representatives of the press, and the railing of the balustrade was ornamented in graceful gestoons of flowers and evergreens, while a large rustic basket containing beautiful flowers was pendant from the balustrade of the balcony above; these floral decorations were further supplemented by two large rustic stands placed directly in front of the speaker's position, and filled with fragrant flowers which made the air redolent with perfume. The patriotic sentiment of the occasion found representation in a number of small flags which were entwined within the festoons at intervals.

When the councilmen and people had all assembled in the central hall, on the first floor, order was restored by Dr. Arthurs, and in response to the invitation from Mr. Gazzam, Rt. Rev. Bishop Kerfoot stepped forward, and delivered

THE INVOCATION.

O Lord God, our Heavenly Father, who art the blessed and only potentate, the King of Kings and Lord of Lords, who only hath immortality, and dwellest in the light which no man can approach unto, to Thee be honor and power everlasting, amen.

Hear us now, O God, when we come before Thee, in behalf of ourselves and of this whole city, to ask thy loving care and help, and to offer to Thee our prayers and vows in the name of Jesus Christ, Thy Son, our Lord. Except Thou, O, Lord, keep our city, the watchman waketh but in vain. Still keep us and our children as thou hast here delivered and kept our fathers in the days gone by. Thou hast given us a good land, a land of fountains that spring out of valleys and hills; wherein we eat bread without scarceness, and lack not anything in it; a land whose stones are iron, and out of whose hills we dig our wealth! We have built ourselves goodly houses and we dwell therein; our gold and our silver is multiplied; but we would not let our hearts be lifted up so that we should forget Thee, the Lord our God in not keeping the commandments and judgements and Thy statutes which Thou hast commanded us to keep. Thine, oh Lord, are the greatness, the power and the glory; riches and honor come of Thee. Thou reignest over all. In thy hands it is to make great and give strength unto all. Now, therefore, O, our God! we thank Thee; and praise Thy glorious name for all Thou hast done for this, our city, for its people, and for our whole nation. Yet have we not served Thee nor obeyed Thee as we ought to have done. We have not kept Thy laws nor honored Thy name as we ought. We and our fathers have often and in many ways sinned against Thee. Therefore this day we pray Thee remember not, Lord, our offences, nor the offences of our forefathers; neither take Thou vengeance of our sins. Spare us, good Lord. Spare Thy people whom Thou hast redeemed with the most precious blood of Thy Son, and be not angry with us or our children forever! Let not Thy favor and blessing be ever withdrawn from this city and people, nor let Thy sore judgments come upon us. Deliver us, good Lord, from lightning and tempest, from fire and conflagration, from plague, pestilence and famine, from battle and murder, from all seditions, privy conspiracy and rebellion, and from all contempt of Thy word and commandment. May it please Thee, O good Lord, to succor, help and comfort all among us who may at any time be in danger, necessity and tribulation, to preserve all sick persons and young children, to pity the prisoners and captives, to defend and provide for the fatherless children, the widows, the aged and desolate, and for all who are oppressed with sorrow or wrong.

Stir the hearts of Thy true servants in this community, especially of those to whom Thou givest earthly riches, to establish and multiply among us the institutions of mercy and charity to the souls and bodies of men. May the houses of prayer be abundantly built to Thy honor, and be diligently used by godly people, in offering to Thee prayers and praise, and in hearing Thy Truth and Law. May the schools for the young be multiplied among us, and in them may the children be well trained in all useful knowledge in true virtue and integrity, and in reference and obedience to Thee and to Thy Word and Law.

Make us a people that knows and worships Thee, the one true God, revealed to us in Thy Son, that Thou mayest show mercy upon us and our children to all generations. Make Thy holy name to be reverently spoken among us all, so that in regard to the oath of God, this people may speak every man the truth with his neighbor, and execute the judgment of truth and peace in our gates.

Make Thine own holy day to be ever revered by us and our children, to the glory of Thy sacred name, to the spiritual and temporal gain of this people, to the rest and refreshment of the weary in body and in mind, and to the perpetuation of our social virtues and of our national life and prosperity.

Fill our homes with domestic peace and order, teach our children to love, honor and succor father and mother, and teach us all to honor and obey the civil authority. May malice and hatred, passions, lawlessness, cruel wrongs, bloodshed and murder be restrained and prevented among us; may the honorable grace of purity and the manly virtue of temperance, soberness and chastity grow and abound in our midst, and banish more and more the shameful and deadly sins of licentiousness and lust.

May true and perfect honesty prevail in all the dealings of our trade and commerce and in the discharge of all our public trusts, and may the lust of covetousness, the wrong doings of idleness and robbery, be checked by Thy fear and by the faithful enforcement of righteous laws. May the truth be spoken among us in charity, and may the words and deeds of benevolence prevail in our community, and that loving our neighbors as ourselves, and loving Thee, our Father, with our whole strength, we may be indeed a people blessed of Thee our God!

And now we humbly ask Thee, O Lord God, who alone dost ordain the civil powers of the earth as Thy ministers for our good, to make this house, built by this city for the ministration of justice, and for the discharge of sacred municipal trusts, the house of that righteousness and integrity which spring out of Thy holy fear. May the hearty belief and constant remembrance that God shall judge the righteous and the wicked in His Great Day, banish wickedness from this place of judgment, and iniquity from this place of righteousness. We know and believe that, "Except the Lord build the house and rule in it, they have labored in vain who built it." Therefore, we openly confess Thee, here this day, thou God of Heaven and earth. The rulers of this city offer Thee now their vows of fidelity as Thy ministers for the good of their fellow-citizens. We believe Thy word that when it goeth well with the righteous the city rejoiceth, and that by the blessing of the upright the city is exalted. Give, therefore, O Lord God, Thy holy spirit to the Mayor, the Councils, the magistrates, and all the officers of this city, that they may approve themselves in Thy sight and before their own consciences in every official trust; and throughout our land, in every part of it, do Thou so direct and dispose the hearts of all Christian rulers, that they may truly and impartially administer justice, to the punishment of wickedness and vice and the maintenance of Thy true religion and virtue; so that this our city, this State and this whole nation may honor and fear Thee, and may grow in thy obedience and fulfill thy merciful purpose, and that thus we and our children may long dwell and prosper in this good land that Thou hast given us, through the name and merits of Jesus Christ, Thy Son, our Lord, Amen.

The Right Reverend gentleman then pronounced the Lord's prayer and the benediction.

COL. PHILLIPS' REMARKS.

At the conclusion of the prayer, Col. Phillips, Chairman of the Commission, descended to the first landing of the stairway, where he addressed the people in front, saying:

Gentlemen of the Select and Common Council of the City of Pittsburgh, the Burgesses and Town Councils of the Boroughs of the South Side:

Permit me to extend to you through the Commissioners appointed by an Act of Assembly to build this hall, known as the Municipal Hall, a hearty welcome.

To the Mayor and citizens of Allegheny, I had hoped to have welcomed you, not alone to participate, but to take active part with us as owners of this magnificent building.

Gentlemen, I cannot pass in this opportune moment, the gentleman to whom all the credit of this magnificent building is due. I mean Joseph W. Kerr, architect. The commissioners all join with me in so declaring, that to Mr. Kerr all the credit is due. Gentlemen, this building, beautiful as it is, yet combines other qualities as well as beauty of superstructure. It is substantially built, being entirely composed of iron, brick and stone, hewn and brought from the celebrated Catfish quarries, located on the line of the Allegheny Valley Railroad. [Cheers and laughter.] Gentlemen, you may make a comparison between this hall and that beautiful structure on the hill called the court-house and jail, which cost the county $350,683 67 in 1843, when stone masons were to be had at $1 to $1.25 a day. Although it was a beautiful structure then, yet in a few years it will be a structure that *was* but *is* not, as it is crumbling already. The material that this municipal hall is composed of is of that peculiar character that ages may sweep it, and the older it is the stronger it becomes. [Applause].

Loud calls were now made for Mr. Kerr, who finally, in response, came forward and said:

Gentlemen: You all know that speech-making is no part of an architect's business, and I'm no exception. I believe in that rule. Some one has said that "there are sermons in stones and books in running brooks." I can only point to your new hall as my speech. [Applause].

MR. BURGWIN'S ADDRESS.

The party then re-ascended to the palisade when His Honor Mayor Blackmore introduced Hill Burgwin, Esq., member of Select Council, who spoke as follows:

SPEECH OF MR. BURGWIN.

I feel highly honored, Mr. President and Gentlemen of City Hall Commission, in having been selected to respond to the kind words with which you have welcomed its future inmates to this beautiful building. I assure you that the removal from the old quarters is a most agreeable one to us, and well worthy the pomp and circumstance with which it has this day been attended.

Let me, then, congratulate you upon this auspicious conclusion of your efforts to provide this prosperous and growing city with a municipal hall in some degree worthy of her size and wealth. I know that you have had many difficulties to meet, much opposition to overcome, many calumnies to live down. But difficulties *have* been met by indomitable energy, opposition has been overcome by the logic of time, and calumny itself has been overwhelmed with the verities of facts and figures. And now success has crowned you victors, and brought your fellow-citizens here to-day to award you the well-earned meed of faithful servants, and to thank you as I do in their name for the time, and zeal, and skill which you have devoted to this work. [Applause.]

From the first we have had no fears for the result. We knew who it was we had entrusted with the leadership in the enterprise—that he was one who, whether in private or public engagements, whether in erecting hotels, managing glass houses and rolling mills, building up country towns, guiding the finances of a city, resuscitating a dying railroad and constructing and extending it to unthought of limits—knows no such word as fail in his vocabulary. The labors and trials of public and private enterprises may have blanched your hair, sir, (Col. Phillips) but they have never blanched your heart.

Gentlemen of the Committee, and you, sir, (Mr. Kerr) their chosen architect, may indeed regard it with no ordinary satisfaction that your names will be identified with the planning and erection of this stately and commodious edifice.

The associations connected with a building devoted to such uses and purposes as this will be, must present themselves very forcibly to the man of thoughtful mind.

Here will be located the City Treasury the financial heart of the corporation; and here, under the guidance of the Finance Committee, of which long may you, sir, (Col. Phillips) be the honored head, will be worked out those problems in political economy, which so deeply affect for weal or woe the interests of the whole community.

Here will be found the central court of our municipal police—the hands, so to speak, of the corporation—from which with you, sir, (Mayor Blackmore) to direct them, we shall confidently expect that guardian care and watchfulness over our families and our property; that public order and private security, which do not indeed always follow in the footsteps of advanced civilization, but which I am proud to say may justly be the boast of this populous but peaceful city.

Here also the other departments of our city government will be found, which we shall look to for those careful deliberations and wise precautions which will be our safeguards and protection from the ravages of pestilence and fire.

The Board of Health solicitously caring for the purity of the air we breathe, shall represent the lungs of the city.

The Fire Commission with the electric telegraph, whose net-work of wires stretches from pole to pole, and from center to circumference, shall represent the nerves.

And what more like the veins and arteries of the human system than the iron pipes our Water Commission shall provide through which shall flow to every nook and corner of the city, that great necessity of human life?

And here also, last but not least in their influence upon the well-being of the city, are to assemble from time to time, those representatives whom our citizens may elect to legislate for them upon matters of municipal concern—our City Councils.

Thus, with the Treasury as the Heart, the Police as the Hands, the Board of Health as the Lungs, the Fire Commission as the Nerves, and the Water Commission as the Veins and Arteries of the Body Politic, may we not regard the City Councils as its Brains? I trust I shall not excite a smile at the thought. If not, they surely ought to be, and upon you, my fellow citizens, rests the responsibility if they are not.

How important a position do we hold. All the great and diversified industrial pursuits of the city send their representatives to our Council chambers to think and plan for the best interests of their constituents. Merchants, manufacturers, mechanics, farmers and financiers are all here; and it is said that even lawyers, members of that much abused and much-enduring fraternity will work their way in, for what purpose I'm sure I cannot tell. Perhaps to sit in silence and listen to the logic and rhetoric of their fellow members.

Perhaps he comes to play the patriot and report himself through the morning papers as the faithful Cerberus, ever watchful and standing guard over the public purse.

Perhaps tired of ever fighting in single combat, he likes by way of variety to join in the strife and excitement of a general engagement, no bearing in mind that quite as often as not, his name may appear next morning in the official papers among the killed and wounded. I am sure that there is one whom I ought to answer for, but cannot, as to what has brought him here. [Laughter.]

Certainly our constituents do not send us here to work out any selfish purposes of our own, but with that aggregated wisdom which is supposed to flow from a multitude of councellors, we are to foster and promote the growth and prosperity of the whole and every part of this great city. And, indeed, so rapid has been that growth within the last few years, not only internal, but external growth, from consolidation past, present and prospective, that I fear we are not fully awake to the responsibilities which rest upon us, the city's chosen legislators: that we do not fully appreciate the vast interests which are committed to our charge.

The idea is too prevalent that the chief end of man, that is of the Councilman, was to help elect some friend to a good city office, or procure him a good corporation contract (I will say, and share the profits); to get some plan of lots approved, or street opened and paved; to bring into market his own or his friend's property, while the general interests of the city might as well be left to the control of a few leading members, without much concern to the many.

I trust, however, that the event which we are now here to celebrate—the removal of the City Councils and of all the city officers, from the dingy and disagreeable quarters they have so long occupied in the market building, to this stately and commodious edifice, will mark and illustrate a new administration of our city government; that our ideas will expand sufficiently to comprehend and provide for the grand future of this great city, which now lies open to the prophetic eye like a rich and varied landscape; that we of the Councils shall devise liberal things to promote the great industrial interests of this city as you, sir, and your fellow Commissioners have devised liberal things in this beautiful building for us who are to occupy it. In a word, that this Municipal Hall, with its imposing height, its massive walls, its well arranged and fair proportioned rooms, will prove a type which we shall recognize, of the size and wealth and beauty of that city whose interests we, within these walls, are to guide and guard. [Applause.]

At least, my fellow members of Select and Common Councils, let us, in leaving our old abiding place and taking our seats in these commodious and chastely furnished chambers, let us leave behind everything that better befitted our former surroundings and the halls we have abandoned. Let us rise to a sense of our real duties, and the responsibilities which, in taking our oath of office, we have assumed. Let us so govern ourselves that no word of reproach can be justly attached to the name of a City Councilman. [Applause.]

We *have* been meeting at a place—the market—where all the surroundings are of bargain and sale. Look to it, then, whatever *may* have been said of any of us, that for the future none will dare assert that any member of the Pittsburgh Councils is still in the market. Let our course for the future correspond with the beauty and purity of our present surroundings. You, sir, Colonel Phillips, with your associates on the Commission, have labored, and successfully, to furnish us with a casket worthy to contain the varied treasures of the city. Your ambition will, I know, be fully gratified, your labors will be amply rewarded, if the jewels of municipal Zeal, Wisdom and Integrity, of which this fair edifice is the outside setting, shall ever preserve their brightness, unsullied and undimmed, and shed a wide extending lustre, worthy the workmanship which adorns and sets them off. [Applause.]

A CONSOLIDATION HINT.

The band now played "Hail Columbia," following Mr. Burgwin said, "I have been requested to return thanks to those of our brethren who have favored us with their presence on this occasion. We hope to welcome our friends from the South Side with us before long, and soon also to have our Allegheny friends here also. [Laughter.] Our friend Mayor Callow perhaps has something to say to us.

Mayor Callow—Everybody who knows me knows that I am no speech-maker, but I am glad to mingle with you to-day. But, much as I rejoice in your prosperity—your almost unexampled prosperity—as a city, and while I am willing you should extend your border clear to Westmoreland county. I must say we don't want you to get your foot in Allegheny (laughter) and more than that we don't intend to let you.

Mr. Burgwin—I suppose you can't help it? (Laughter.)

Mayor Callow—Oh! but we will help it, we intend to keep a sharp watch on you. (Laughter.) But gentlemen while I do not know your aspirations over that way, I am heartily glad of your prosperity.

The band then struck up another tune, the speech making was then over and the people gradually scattered, for a more detailed inspection of the building.

NEW MUNICIPAL HALL.

A brief account of the origin of the project for building the new Municipal Hall, and a description of its exterior appearance and interior arrangements will not be out of place at this time. The decisive steps to secure the erection of the new building were taken in 1868, a Committee, consisting of Col. Wm. Phillips, James McAuley, H. W. Oliver, Jr., Jared M. Brush, Wm. M. Lyon, and John H. Hare, being appointed by Councils to take general charge of the work. Mr. McAuley died in the second year of his term and the President elect of Select Council, Dr. A. H. Gross, was appointed to fill the vacancy. The Commission organized by electing Col. Wm. Phillips as President, Thomas Steel, Esq., Secretary, and J. W. Kerr, as Architect. Work on the building was commenced in 1868 and during that year the foundations were laid. A year's suspension of work followed, after which the building was speedily pushed forward to completion. As it now stands completed it has a front of a hundred and twenty feet on Smithfield street, with one hundred and ten feet depth, to the extreme rear. The body of the building is one hundred and twenty feet long by one hundred feet deep, being set back eight feet from Smithfield street, with a central projection of forty feet more on the line of the street forming a base to a tower of forty feet square, carried up in the front of the edifice. The body of the pile has three full stories and an attic—the tower reaching two stories higher. The style of the architecture is Renaissance,—a combination of ornamental pilaster and cornices to each story, and moulded dressings to all openings. The attic has a mansard roof fifteen feet high above the crown moulding, and the tower is carried up forty-eight feet above the main cornice, and is covered with an iron dome in the Louvre style, on which is placed an open octagon belfry fifteen feet in diameter, constructed of iron, terminating in an ogee domelet and vane, making the whole structure one hundred and seventy-five feet above the sidewalk. The front of the building is of stone, and the side and rear walls of brick. The dome and belfry are of iron, and the former is covered with slate.

THE INTERIOR.

The main entrance to the building is through an arcade on the first floor, the openings, three in number, being six feet wide each. The arcade forms a porch or balcony thirty-four feet wide and fifteen feet deep. From this arcade the visitor enters a main doorway, six feet wide, leading through a vestibule twelve by sixteen feet deep into a central rectangle thirty-six feet square. This rectangle runs to the roof and has galleries six feet wide, carried around at each floor, from which doors communicate with all the rooms, and is surmounted at the roof with a raised skylight, arranged to form a ventilator for the whole building. In the rear of the rectangle is the stairway twenty feet wide by twenty-nine feet deep, extending to the back wall of the building, having large windows in each story. The stairs are built of stone, and have a central flight of eight feet wide, and two side flights of five feet each. At the head of the central flight is the old stone slab which formerly occupied a position over the doorway of the old redoubt at the point. It bears the inscription, "Col. Boquet, A. D. 1764." The slab was presented by Mrs. Schenley and heirs of Gen. O'Hara to the Commission, permission for its removal having been first obtained from London.

Three new windows have been placed at the head of the main stairway on the second floor, which are very beautifully etched into appropriate pictures. The upper glass of the left hand window represent the mouth of a coal mine in the side of a mountain, with coal cars coming out of the mine. The lower glass has a spirited view of a forge. The upper portion of the middle window gives a fine representation of old Fort Pitt, and the lower portion contains an etching of the old seal of the city of Pittsburgh. The upper glass of the right hand window gives a view of an old oil derrick with appropriate accessories, and the lower glass represents the interior of a glass house, with the men at work.

THE OCCUPANTS.

Off the first floor to the right of the entrance are located the Mayor's quarters, consisting of a court room, an office for Clerk Patterson, and a private room occupied by Mayor Blackmore. Opening out of the court room is a private office used by Chief of Police Irwin. In the porch is a very cosy little office occupied by the Janitor, Mr. Charles F. Porter, and his assistant, Mr. Ed. Magee. Opposite the Mayor's office is the City Treasurer's office, where Mr. Chris. Magee, and his assistants, Thomas Phelps, C. B. Gillespie, W. M. Decamp and G. S. Fulton may be found. In the rear of this office is that of Mr. McGowan, the City Controller, and his assistant, Mr. R. M. Snodgrass. Opposite this, of course on the right hand side, is the City Engineer's Department, where may be found Mr. Dempster, Geo. Booth, his clerk, J. R. Brigham, Register, and J. D. Thomas, Assistant Register.

SECOND FLOOR.

On the second floor to the right hand side are located the offices of the Board of Health, with desks for Health Officer Crosby Gray and his assistants—John G. Little, clerk. Adjoining this is the office of the City Attorney and City Clerk, and adjoining these the offices of the Water Committee where may be found Mr. C. Bostwick, A G. Murphy clerk, and James M. Atkinson, Superintendent. Opposite are the elegantly furnished apartments of the Water Commission; John Ross, Secretary; W. H. Kennedy, Chief Engineer; Robert McClelland and Henry F. Greer, Assistant Engineers, and Joseph Lowery, Mechanical Engineer. The front of this floor is occupied by the chambers of the Select and Common Council with a very handsomely finished and well furnished reception room between them.

THIRD FLOOR.

On the right hand of the stairway on this floor will first be found the offices appropriated to the use of the Sealers of Measures and the Wharfmasters. Next, the headquarters of the Survey Committee over which Colonel Lehian has supervision. Adjoining this office is the quarters of the Board of Viewers of Streets, with R. B. Craig in charge. To the left may be found the office of the Building Inspector Mr. Reed, and next the Street Commissioner's quarter with desks for Messrs. Hunter and Liverman. The Fifth Avenue Commissioners also can be found here with Isaac Morley Superintending Engineer and Henry C. Hughes Assistant Engineer. The front of this floor is occupied by the Fire Commission, who have very commodious and well furnished apartments. On the left hand side of the same floor is the working room of the engineer's department: William Martin, Assistant Engineer; John Q. Crouch, Transitman; John George, Inspector of Sewers; Immanuel Wilcox, Thomas Harman, —— Rutledge, Wm. Porcher, and Ed. Bigelow—Rodmen; Hugh Neal, Regulator and James Meredith Assistant Regulator.

FOURTH FLOOR.

The only apartment occupied on this floor is the front one where the Fire Alarm Telegraph has its office. Here may be found Captain Fullwood, Superintendent; George Wilson, E. F. Northam and George Silvey—Operators.

MEETING OF COUNCILS.

City Councils held their regular meeting in the new Council Chambers in the afternoon, and the change from the old quarters, dingy, dirty and dark, to the new, fresh, convenient and luxurious, seemed to be thoroughly enjoyed by the members. The new chambers are elegantly, but substantially, furnished, in keeping with the magnificent character of the building. Every provision has been made for the comfort of the members, and the Commission, with unusual forethought, provided with a liberal hand for the "Third Hand," as President Oliver is wont, in facetious terms, to style the reportorial fraternity. On either side of the Clerk, places are provided for the official reporters, while a round table on the right, and another on the left, furnish accommodations for the remainder of the corps. The effervescence of humor which at times takes possession of even such grave bodies as the Commission, finds expression in the tablet upon the tables, by which it is known that they are designed for the use of the "Knights of the Round Table."

The attractiveness of the room, or some other cause, for once induced a commendable degree of punctuality in the members of Councils, and promptly at the hour they were organized for their first day's business in the new Hall.

SELECT COUNCIL.

A. H. GROSS........................President.
E. S. MORROW..........................Clerk.

The members of the Select branch were called to order at 2:15 P. M., and on motion of Mr. John R. McCune, John W. Riddell, Esq., was called to preside *pro tem*. The roll being called the following gentlemen answered to their names:

Messrs. Ahl. Aiken, Asdale, Burgwin, Chambers, Chalmers, Herron, Hoeh, House, Hunter, Jeremy, E. P. Jones, J. H. Jones, Lang, Laufman, Liddell, Littell, Lloyd, Miller, McCarthy, McCune, McDonald, Marshall, Morrow, Murray, Montooth, Neely, O'Neill, Pearson, Phillips, Rafferty, Riddell, Scully, Schmidt, Seeley, Shipton, Smith, Thompson, Wainwright, Waring, Wilson, Zern, Gross, President.

The minutes of the previous meeting were read and approved. During their reading President Gross appeared and took his seat, relieving Mr. Riddell.

DRAWING SEATS.

Mr. Aiken presented a resolution providing for a drawing of seats by lot, commencing with ward number one and alternating to the highest number.

On motion of Mr. Phillips the motion was amended to allow Messrs. McCarthy, Laufman, Thompson and Murray, on account of deafness, to choose front seats.

The motion as amended was agreed to, it being understood that the drawing be by wards. Cards numbered from one to twenty-three, being placed in a hat and a member from each ward choosing for all from his ward.

The First ward, being the first to draw took from the hat No. 19, being the nineteenth choice. The Twenty-third ward drawing second drew the eleventh choice, and the Second ward drew number twenty, all of which created laughter. The Twenty-second ward drew the fourth choice and so it continued. Mr. Aiken for the Twentieth ward drew number one and inquiries were made as to whether number was not on sand paper. The Sixteenth ward drew number three. The Ninth ward drew the last choice, number twenty-three.

The business of drawing seats having been concluded the regular business of Councils was proceeded with.

PETITIONS AND REMONSTRANCES.

Mr. McCarthy, petition for changing the grade of Rose street, and a petition for damages for grading of Rose street. Referred to Street Committee.

Mr. Smith, resolution requesting the Survey Committee to report an ordinance regulating distances between streets and alleys in the new districts. Adopted.

Mr. Smith, petition for water pipe on Centre street, Sixteenth ward. Referred to Water Committee.

Mr. Littell, petition for location of a street at right angles with Penn avenue. Referred to Survey Committee.

Mr. Burgwin, remonstrance against opening of Granville street. Referred to Street Committee.

REPORTS OF COMMITTEES.

Mr. Lloyd presented a report from the Water Committee for April. The expenditures for the month were $12,435; current expenses &c., $6,011,65, and permanent extension $6,423.36. Accepted. C. C. concurred.

Mr. Neely presented a report from the Committee on Wooden Buildings, with an ordinance authorizing Fred. Schaad & Co., to erect an iron-clad building. Accepted and ordinance adopted. C. C. concurred.

Also an ordinance giving the same privillege to Jacob Louer & Co. Adopted. C. C. concurred.

Mr. Shipton, report from Gas Committee, covering the erection of lamps petitioned for. Accepted and approved. C. C. concurred.

Mr. Montooth, report from Ordinance Committee, negative to resolutions in regard to City Engineer's office, and numbering of streets of city according to the Philadelphia plan. As against the change of numbers on streets, the committee suggest that the cost would be great. Accepted. C. C. concurred.

STREET OPENINGS.

Mr. E. P. Jones, report of viewers on opening of Filbert street from Ellsworth avenue to Walnut street. Approved.

Also report of viewers on opening Shady Lane from Fifth avenue to Forbes street. Approved. C. C. concurred.

Same, supplement to an ordinance curing a defect in an ordinance providing for the opening of Frazier street from Halkett to Bates street. Read three times and passed. C. C. concurred.

Also, a similar ordinance relative to opening of Halkett street. Laid over on objections.

Also, opening of Bedford avenue from Erin to Webster avenue.

Mr. McCarthy objected, and asked that it be laid over until time was given for examination.

After an explanation from Messrs. Jones and Herron the objection was withdrawn, and the ordinance passed finally. C. C. concurred.

Also, an ordinance widening Highland avenue from Penn avenue to Basin of new water works to 60 feet width. Read three times, and passed.

Mr. Herron called up the ordinance providing for the opening of Halkett street, laid over as above. Mr. Waring objected and said the street is not needed.

Messrs. Herron, Burgwin and Scully spoke in favor of the ordinance. Mr. Riddell opposed the ordinance because the gentlemen representing those particularly interested, does not now want the opening. Mr. Lloyd asked that the ordinance be laid over for one meeting at least, which action was also favored by Mr. Zern.

The rules were not suspended.

REPORT OF WATER COMMISSION.

Mr. Burgwin presented a report from the Water Commission as follows:

To the Select and Common Councils:

Gentlemen—The Board of Water Commissioners respectfully report that having received a very liberal proposition from Col Wm. Phillips and others to donate to the city, free of cost, twenty-five acres of land situate in the borough of Verona, to be used for the construction of a reservoir, to supply the city with water; they therefore instructed their chief and mechanical engineer to examine into the feasibility of the site and make report of the same. The reports of which examination are herewith submitted, and the same being decidedly adverse to the economy and practicability of constructing a reservoir at the proposed location; the Board decided that it would not be for the best interest of the city to accept the proposed donation.

We would further report that since the action of Councils of April 22, 1872, directing the Board to file exceptions to the award of the viewers appointed by Court to assess the value of certain property, among other that proposed to be taken from James McCully, the Commission having had several meetings with Mr. McCully and his attorney, Robert Woods, Esq., finally, on the 17th day of May, 1872, made an amicable agreement with Mr. McCully by which they are to obtain immediate possession of the land therein specified, being 8 558-100 less than the amount condemned by this Board; the said agreement, a copy of which is hereto attached, being made subject to the approval of Councils.

We respectfully recommend that Councils approve of the agreement made with James McCully, and accept deed or deeds for the same on the terms specified in the agreement. In order to carry out the foregoing recommendation, we offer for your adoption the following resolution:

Resolved, That the written proposition from James McCully, as accepted by the B. of W. C., be and the same is hereby approved, and the said Commission is hereby authorized to perfect the same in the name and in behalf of the city of Pittsburgh.

The agreement accompanying the report which was also read, allows Mr. McCully to retain his house and a number of acres surrounding the same as has already been published.

Mr. Burgwin also proceeded to read the report of the chief and the mechanical engineers, but was interrupted by Mr. McCarthy who moved that action be postponed until next month and that in the meantime the reports be published for public information.

At the suggestion of several members the motion was withdrawn and the reading continued.

Office Chief Engineer }
New Water Works, Pittsburgh, }
May 16, 1872. }

To the Board of Water Commission:

Gentlemen—In compliance with your resolution of the 13th inst. directing me to examine the property at Verner which Col. Phillips and others proposed donating to the city of Pittsburgh for a reservoir site, and to report on the practicability of conducting the water supply of the city therefrom along Wildwood avenue, I would most respectfully report that in pursuance of that duty on the 15th inst. I accompanied S. Beymer, Esq., Water Commissioner, and Joseph L. Lowrie, Esq., Mechanical Engineer of the Board, on a visit to the proposed site.

Robert Arthurs, Esq., one of the commissioners appointed by the Legislature to lay out and construct Wildwood avenue, kindly consented to accompany us in order to show the route upon which it is proposed to locate the avenue.

The proposed donation of land is upon the summit of what is known as Verner's Hill, and should a reservoir be constructed there the flow line would be five hundred feet above the datum line of the water works survey, the zero of which is low water mark on the St. Clair street bridge. Verner's Hill is distant from the Allegheny River (4820) four thousand eight hundred and twenty feet, but as the river immediately in front of the proposed reservoir is shallow, the water to supply it would have to be lifted either from Jones' Pool below the borough of Verona, or above the bar at Plum Creek, near Hulton Station, where, I am informed, there is a deep pool. In case the water should be taken from Jones' pool, the distance from the river to the reservoir would be about one and one-quarter miles (1¼). I do not know what the distance to the pool above Plum Creek would be, but it is a great deal further to Jones' Pool.

The site on Verner's Hill is a very good one for a small reservoir, to contain say from ten to fifteen million gallons, but the construction of one larger than this would be attended with very great expense, as the hill top is a very narrow ridge sloping down on both sides very rapidly.

To conduct the water from a reservoir situated on Verner's Hill to the city, in part through private property and in part along Wildwood avenue, necessitates the construction of a tunnel, as I find by reference to the map prepared under the direction of Col. Roberts to accompany the report to the Pittsburgh Water Committee that there is a part on the route of the proposed avenue which is fifty-three feet higher than the floor line of the proposed reservoir, and even if it were found practicable to avoid the point of a change of route there is still another place in the main divide, at its lowest point, where Wildwood avenue must of necessity cross, which is almost exactly on a line with the floor line of the floor of the proposed reservoir, and unless a tunnel or a very deep cut was excavated to here, the velocity of the water in the conducting pipes would be very much retarded.

The disadvantages of conducting the water supply for the city along Wildwood avenue would be very great as owing to the topography of the county the proposed avenue must necessarily vary greatly in its extremes of elevation in descending into the valleys along its route (in some places I should think as much as three hundred feet) at which point the pressure on the pipes would be very great, and would require them to be made very heavy to resist it. On the other hand on the higher points the pressure would be very slight, and the flow of water would be so slow as to require pipes of a very large calibre to deliver a sufficient supply.

Verner's Hill is distant from the city line, along the Wildwood avenue route, as nearly as I can estimate on the maps, five and one-tenth miles, and from the city line to the intersection of Penn and Highland avenues by way of Lincoln avenue and Frankstown road, is two and four four-hundredths miles.

In case a reservoir was to be constructed on Verner's Hill, it would also be necessary to construct another for the lower service distribution, as the pressure on the supply mains already laid in the lower portions of the city, with an extreme head of about four hundred and seventy feet, would be more than they could withstand. The waste of water with such a head would also be very great, as with an excessive head the waste is almost uncontrolable.

A reservoir on Verner's Hill would not be high enough to supply the elevated portions of the city, and hence the Herron's Hill reservoir, the floor line of which is five hundred and sixty-two feet, could not be dispensed with.

The annual outlay required to raise the quantity of water consumed in the lower portion of the city to an elevation over twice as great as that which is either necessary or desirable to say nothing of the largely increased present outlay for machinery would, in my opinion, render the location of reservoir on Verner's Hill very undesirable.

I could not, of course, without making careful surveys, give even an approximate estimate of the cost of supplying the city with water from this scource, but feel confident that it is impracticable to do so.

Respectfully submitted, W. H. Kennedy.

The report of the Mechanical Engineer gives an estimate of the works and of the cost of pumping water at Verona, and is against the location of the works or basin at that point.

Mr. Phillips said that he had no idea of the difficulties in the way of locating the works at Verona, but having heard the reports he now withdrew his offer. He stated that the offer had been made with a motive only to save money to the city.

Mr. Burgwin stated that the commission had never doubted the good motives of the gentleman in making the very liberal offer.

Mr. Phillips questioned Mr Burgwin as to whether the deeds for the property purchased are not made out, absolutely conveying the land to the city in fee simple.

Mr. Burgwin said he had not examined the deeds, and would not say positive, but the commission had left the matter with the City Solicitor.

The City attorney being called upon, said that the city may use the property for any purpose.

Mr. Riddell called in question the explanation of Mr. Burgwin, as to the title, as he understood at the last meeting Mr. Burgwin said that the city could use the land only for the purpose for which it was bought. He thought the criticism on the Commission had done good in saving $50,000 purchase money, if nothing else.

Mr. Burgwin said the gentleman was welcome to all the capital he had obtained, and hoped it would elevate the gentleman in the way he was striving for.

On motion of Mr. Herron, the report and accompanying documents were accepted and ordered to be published.

Mr. McCarthy moved that the resolution in the report be laid on the table for the purpose and that Councils visit the grounds with the engineers and commission and see what has been done and what the Council are to be asked to do yet. He strongly condemned the commission for not knowing whether they have good titles or not to ground purchased. He heretofore had confidence in the commission but now it was destroyed. If Councils are to take the responsibility in the matter of the construction of the new water works they should take the matter in hand and see and know all steps progressing and to be taken. Extraordinary disclosures had been made to-day that already mentioned, and the fact that it has been found that five or six acres less of ground is now found necessary to be purchased from Mr. McCully. No man would buy property without knowing the title he was to get for the land, and he was astonished at the acknowledgement of the gentlemen (Mr. Burgwin) that he did not know whether the deeds were in fee simple or not.

Mr. Burgwin explained the arrangement with Mr. McCully, and the steps taken in the negotiations with him.

After the discussion, the motion to accept the report was adopted.

Mr. McCarthy called for his motion to lay the resolution on the table and that the Councils meet on the ground. Lost.

The resolution was then adopted without opposition.

The rules (at the suggestion of Mr. Burgwin) were suspended and the resolution considered, read three times and passed.

Mr. Smith—petition for gas lamps on Winebiddle avenue. Referred.

Mr. Littell offered a resolution instructing the Ordinance Committee to report an ordinance providing for laying of a wooden pavement on Smithfield street in front of the new City Hall.

Mr. Rafferty moved to amend by making the limit Fifth avenue to Virgin alley. The amendment was accepted and the resolution as amended was then read three times and passed. C. C. concurred.

SALARIES OF CITY OFFICERS.

Mr. Phillips moved that the regular order of the day be suspended, so that the ordinance fixing salaries of city officers might be taken from the table. The ordinance was read as originally offered in January last and as amended by C. C. striking out Assistant Water Assessor and Assistant Clerk.

Mr. Jeremy moved the increase for Mayor's clerk and Controller's clerk be stricken out. He believed that plenty of capable men could be found at the salaries now given.

Mr. Rafferty moved to make the Mayor's clerk salary $1,200, the same as the Controller's clerk.

Mr. Phillips explained that there had been a slight increase in the rates from those in the ordinance as originally offered in January last.

Mr. Rafferty insisted on his motion, saying that plenty of men can be had for $1,200 for Mayor's clerk.

Mr. Jeremy withdrew his motion and seconded that of Mr. Rafferty.

The amendment was lost.

Mr. Morrow moved to recede and concur in action of C. C.

Mr. Jeremy called for the ayes and nays, but the call was not sustained.

The ordinance as amended was then passed finally.

Mr. Smith called up the report of the viewers on the damages caused by the grading of Penn avenue from Butler to Forty-fifth street. Approved.

Plan of building lots in Eighteenth ward, laid out by Carneigie & Co. Approved. S. C. concurred.

Mr. Waring, resolution providing for a committee of five to look after the city lock-up, and see what provisions are necessary to provide more accommodations for prisoners.

At the suggestion of Mr. Phillips, the resolution was amended instructing the city Property Committee to see to the matter, and so adopted.

An ordinance providing for the opening of Fifth avenue from Brady street to second angle beyond, in C. C. adopted, was taken up and laid over.

Adjourned.

COMMON COUNCIL.

H. W. OLIVER, JR..................President
H. McMASTER..........................Clerk.

This branch was called to order on time by President Oliver, the members selecting their seat, temporarily at random. At the call of the roll the following members answered.

Messrs. Allen, Arthurs, Arensburg, Barr, Baker, Baum, Beymer, Bindley, Cameron, Carroll, Cohen, Darlington, Deitrich, Dickson, Duff, D. L. Fleming, John Fleming, Follansbee, Fulton, Galisath, Gazzam, Jones, Kerr, Kohen, Koverman, Kurtz, Lappan, Liebler, Lowery, Mattern, Meyer, Moffitt, Joseph Moore, John Moore, Morgan, Mosely, McGimpsey, Neeson, R. H. Negley, Pender, Price, Ramsey, Riley, Rush, Schild, Semple, Sims, Sneathen, Spreyer, Verner, Watson, Williams, Wooislayer, Young, and President Oliver.

WAGES OF POLICE.

Mr. Cohen presented a petition signed by the police force asking an increase of salary. The petition was endorsed by the signatures of four hundred and forty-eight citizens and a paper showing the salaries paid in other cities. Refered to Police Committee.

Also, the petition of Mr. Max Shamberg praying for privilege to allow a new sign put up in front of his place of business on Smithfield street.

Mr. Follansbee objected to the reception of the petition.

The Chair decided it would require a three-fourth vote to receive and refer it to the Police Committee.

A vote was taken and decided in the affirmation.

Mr. Arthurs presented a paper recommending J. W. Owens as Janitor for City Hall. Referred to City Hall Commission.

CENTRAL RAILWAY STATION.

Also, a resolution requesting the Committee on Railroads to ascertain if there could be a central headquarters for all the passenger railways where all the roads could meet, and thus tend materially to the convenience of passengers. Referred to the Committee on Railroads.

Also, resolution instructing Road Commissioners to have water tables on Fourth street, Hazlewood, cleaned. Referred to Water Committee.

PETITIONS.

Mr. D. L. Fleming presented the petition of a number of residents of the Seventh Ward asking for better water facilities on Logan street, between Franklin and Hazlett. Referred to Water Committee.

Mr. Semple, a petition from James Hunter asking for payment of balance due on contract for paving Webster street. Referred to Finance Committee, with power to act.

Also, remonstrance against paving of Deollier's street. Referred to Street Committee.

Mr. Dixon, petition for water pipe on Harrison street. Referred to Water Commission.

Mr. Beamer, resolution for erection of gas lamp corner Charlotte street and Fifth Avenue. Referred to Gas Committee.

Mr. John Moore, petition for water pipe on Hatfield street. Referred to Water Commission.

Also, remonstrance against grading and paving of Harrison street, Thirteenth ward. Referred to Street Committee.

Also, petition asking for extension of privilege to erect wooden buildings in Seventeenth ward. Referred to Committee on Wooden Buildings.

Mr. Mosely, petition from John Price for permission to erect an iron clad addition to his foundry in First ward. Referred to Committee on Wooden Buildings.

Mr. Sneathen, remonstrance against an ordinance offered at last meeting, providing for the division of the ward into two election precincts.

Mr. Barr moved that the paper be filed with the other papers which had been presented in reference to the matter.

The Chair said the people had a right to petition at any time, and their petition must be received and read. It could then be disposed of.

Mr. Barr, after the reading, renewed his motion to receive and file the paper, which was carried.

Mr. Barr, petition of Wm. Stratton praying for relief from onerous and unjust assessment for opening of Hiland avenue. Referred to Committee on Claims and Accounts.

Mr. Moffit, petition for the final fixing of the grade of Locust street. Referred to Street Committee.

The call of the wards having been finished,

UNFINISHED BUSINESS

was then taken up.

The resolution for employment of watchman at the Point was taken up, and the action of S. C. in passing the resolution was concurred in.

An ordinance allowing H. Martin to erect a frame building at No. 545 Penn avenue, laid over at last meeting was taken up and the action of S. C. in finally passing the ordinance concurred in.

Ordinance authorizing grading, paving and curbing of Thirty-second street, from Penn avenue to Allegheny river. In C. C. May 13th, indefinitely postponed. It was again indefinitely postponed.

Resolution in reference to the temporary improvement of Laurel avenue, laid over at last meeting. No new action taken.

Ordinance referring to animals running at large in the city. In C. C. at last meeting read once and laid over.

Mr. Duff moved to suspend the rules and pass the ordinance finally. Carried.

Ordinance for paving sidewalks under Penn avenue act. In C. C. laid over April 8th, to get the opinion of the City Solicitor. The ordinance was read and the Solicitor's opinion which set forth that he could see no necessity for the passage of the ordinance, but considered it perfectly legal.

Mr. Gazzam objected to loading the records down with ordinances which were not needed.

The ordinance upon a test vote was voted down.

TWENTY-SECOND WARD DIVISION.

The ordinance providing for the division of the Twenty-second ward into two election precincts was next taken up.

Mr. Barr moved to place the ordinance on its second reading.

The petition asking for the change was read.

Mr. Sneathen said forty voters had asked for the change, and one hundred and forty-seven were against it, according to the petitions. He thought that ought to decide.

Mr. Barr said as the case now stood the polls were located on Squirrel Hill, and those residing in the neighborhood of Penn avenue had two miles and a half to travel to the polls, and because of this, often a full vote was not polled. There was a "little ring" around this Squirrel Hill School house, by which the ward had heretofore been controlled. The people wanted to break up this rule, and desired full facilities for polling a full and fair vote.

The gentleman continued for about fifteen minutes, being granted leave to extend his time and contended that all the petitioners wanted was a fair division of the ward, that every voter might have a fair chance to deposit his ballot.

Mr. Sneathen said the remonstrants were not unfavorable to a fair division of the ward, but objected to the lines as laid down in the ordinance.

Mr. Baum called attention to several persons who had signed the remonstrance and were not connected with any "little school house ring," as they resided near Penn avenue.

A vote was then taken when the ordinance passed to its second reading, 33 in favor and 15 against.

CITY OFFICER'S SALARIES.

The ordinance for the fixing of the salaries of city officers was again called up as unfinished business, it having been laid over at several successive meetings. The ordinance had finally been passed in S. C.

Mr. Gazzam moved to concur.

Mr. Darlington objected to making the salary of the Mayor's clerk $2,000. It was now $1,000, and he was opposed to an increase. He moved to amend by fixing the clerk's salary at $1,000.

Mr. Duff said that practically it was not an increase, because year after year, Councils had voted an additional salary of $1,000, and this was merely fixing the salary.

Mr. Darlington said the clerk received $1,500 last year; $1,000 as clerk, and $500 for acting as chief of police.

Mr. Cohen thought no discrimination should be made against the clerk. He had proved an efficient officer, and was worthy of his hire.

Mr. Ramsey moved to amend by striking out the item in reference to the Assistant Assessor of Water; that matter was left to the Water Committee heretofore and he thought it ought not to be changed.

This amendment was carried.

Mr. John Fleming was opposed to giving donations, and did not believe in donating $1,000 each year to the clerk. He thought he should have his salary fixed at $2,000.

Mr. Follansbee moved to amend by fixing the salary at $1,500.

Mr. Darlington accepted the amendment.

Mr. Watson moved to amend by fixing the amount at $2,500. He did not consider Mr. Patterson half paid for his work at $2,000 salary.

Mr. Young favored $2,500. Principals of public schools received $1,500 and $1,800, and only had to work four or five hours in a day, and five days in the week. He thought this clerk would be getting little enough with $2,500.

Mr. Jones thought if the salary was fixed at $1,500 it would pass. He did not believe in taxing a man with work and if Mr. Patterson had to work so hard as was said, he thought he should have an assistant.

Mr. Follansbee withdrew his amendment fixing it at $1,500.

Mr. Watson withdrew his amendment to fix it at $2,500, and moved that it be made $2,000.

Mr. Ramsey said the impression was that Mr. Patterson was compelled to live on $1,000 a year. He had good authority for saying that he was guaranteed $2,500 a year. Mayor Blackmore paying the difference between that figure and his salary of $1,000. And he thought the "perquisites", of the Mayor's office were sufficient to make the Mayor able to pay this difference.

Mr. Duff wanted to know the gentleman's authority.

The gentleman did'nt accede to the request.

Several of the amendments were renewed, but finally voted down.

A motion was then made to pass the ordinance as amended, by striking out the item referring to the Assistant Assessor of Water.

The yeas and nays were called, resulting as follows:

Ayes—Messrs. Arthurs, Barker, Baum, Beymer, Cameron, Carroll, Cohen, Deitrich, Dickson, Duff, John Fleming, Follansbee, Galisaith, Gazzam, Jones, Kerr, Kohne, Liebler, Moffitt, John Moore, Morgan, McConway, Neeson, Patterson, Pender, Price, Rush, Sims, Verner, Watson, and Young. Total—31.

Nays—Messrs. Allen, Arensburg, Bindley, Darlington, D. L. Fleming, Fulton, Koverman, Kurtz, Lappan, Lowrey, Mattern, Meyer, Jos. Moore, Mosely, McGimpsey, R. H. Negley, Ramsey, Riley, Schild, Semple, Sneathen, Spreyer, Williams, Woolslayer, and President Oliver. Total—25.

The Chair decided the ordinance finally passed as it had been read three times in Select Council and twice laid over.

S. C., amended by striking out the words "Assistant Controller" and inserting "Controller's Clerk." Common Council receded and concurred.

The plan of Carnegie & Co.'s lots in the Eighteenth ward was called up and finally approved.

PRINTING.

Mr. Barr, from the Committee on Printing, reported the following bills paid:

Stevenson & Foster printing, &c	$248 10
Post advertising election proclamation	52 50
Commercial vehicle license	15 00
Morning Mail vehicle license	14 50
A. A. Anderson & Son, printing 1,000 commitments	5 75
	$335 85

Received and filed.

THE ENGINEER'S OFFICE.

Mr. Gazzam presented the following report:

Gentlemen—Your Committee on Retrenchment and Reform have had before them (in conjunction with the City Engineer) the reorganization of the Engineer's Department, and would respectfully recommend the passage of the accompanying papers:

It is proven by experience that the lot regulating department is a loss instead of revenue to the city, from the fact that the prices charged will not pay the expense of the corps employed; they therefore submit herewith an ordinance raising the price therefor.

And as the work in all the departments under control of the Engineer is very much behind, and is increasing daily, they would respectfully suggest that he be authorized to employ the necessary force to enable him to have his work completed within a reasonable time, and herewith submit a resolution for that purpose.

They also submit a resolution granting leave of absence to the Engineer and clerk, who they desire to accompany them upon a tour of inspection.

Respectfully submitted,
J. M. Gazzam,
Robt. W. Patterson,
James Littell,
W. C. McCarthy.

The report was received and filed, and the papers accompanying all passed finally, under a suspension of the rules.

SELECTING SEATS.

Select Council business was then taken up and disposed of, after which—

Mr. Watson moved to proceed with the drawing of seats.

Mr. Gazzam moved to allow Messrs. Sims and McCandless privilege to select their seats first. The motion was amended so as to include all members over sixty years of age. The motion, as amended, was carried.

Under this amendment Messrs. Patterson, McCandless, Sims, Watson, and Neeson were allowed the front seats. Several members who were dull of hearing, were also accorded the same privilege of selecting.

The drawing of the seats was then proceeded with, and occupied twenty minutes.

The report from the Water Commission, with accompanying papers, was presented from Select Council.

The Chair considered this an important matter, and thought the papers ought to be printed that the people might learn why the offer of Col. Phillips had been rejected.

Mr. Watson, after some discussion, stated that the Engineers had pronounced the site impracticable.

Mr. Jones moved to suspend the rules to consider the ordinance. Carried.

Mr. Jones then moved to pass the ordinance finally.

Mr. Fulton favored the printing of the reports before decisive action was taken.

Mr. Gazzam said he had just been informed that Col. Phillips had withdrawn his offer, and they had nothing more to do with it.

The report of the Water Commission was then adopted by C. C., the resolution passed finally under a suspension of the rules, and the accompanying papers ordered to be published.

Adjourned.

IN THE EVENING.

During the evening Mayor Blackmore and ex-Mayor Brush held a reception in the room set apart for the purpose of such meetings, in the front of the second story of the building. The Hall was crowded all the evening, a constant stream of persons passing in and out. Both gentlemen underwent a trying ordeal for the arms, and both must be tired this morning after their dose of hand-shaking.

The Great Western Band, from the balcony in front of the Hall performed the following programme:

1. National Melody—Potpouri—Hannich.
2. Overture to Crown Diamonds—Auber.
3. Appollo Polka—N. Young.
4. Introduction and Cavatina, from Belesar—N. Young.
5. W. S. G. Quickstep—Gungle.
6. Overture—The Poet and Peasant—Suppen.

Waltz—Trip over the Mountains—Streck.
Serenade—Good Night. Farewell—F. Kucken.

To-day's Programme.

9 A. M.—Music.
New World March—Faherbach.
Potpourie from the Opera Ernani—*Verdi*, arranged by N. Young.
10 A. M.—Review of Fire Department by Fire Commissioners from balcony of City Hall.
Smithfield street will be barricaded between Fifth and Sixth avenues between the hours of 9 and 3.
11 A. M.—Music from Balcony,
Iron City Polka.
Grand Polonais—Spohr.
Lieghten Steiner Waltz—Labitzky.
2 P. M.—Review of Police Force by Mayor, Chief of Police and Police Committee of Councils.
Music.
City Hall Quickstep.
Jolly Robbers overture—Suppe.
Bruden Lustry Gallop—Budick.
Potpourie from the Miserestrande—Julien Otto, arranged by N. Young.
Sweet Heart Polka—Opittus.
March—composed by Prof. J. M. Schwab,
Serenade—Good bye Sweet Heart.
During the day addresses will be delivered by a number of distinguished speakers.
Evening—Hall will be open from 8 to 12 P. M. for inspection by the ladies. No gentleman admitted unless accompanied by a lady.

UP IN THE DOME.

One of our oldest and most highly esteemed citizens yesterday morning climbed to the dizzy heights of the dome on the new Municipal Hall and there calmly reviewing the changed scene, and picturing to himself the appearance of the city when he was a boy, some fifty years ago, read his morning Gazette. The martins and pigeons much wondered at the old gent's temerity, and were doubtless amazed to find him so cool and collected whilst at such a dizzy heighth. Some persons by straining their eyes thought it was our old friend Montooth and we shouldn't wonder if it was.

A correspondent of the London *Daily News* writes from Naples, under date of May 2: "The topography of Vesuvius is no longer the same as that with which they pretended to be well acquainted. It is as though an earthquake had altered everything. Hills have appeared where but a few days ago stones stood for visitors to rest upon. Precipices have been formed, which almost prevent further advance. All is altered; the very shape of the mountain has lost its well-known outlines, and the view is appalling."

FOR SALE.

FOR SALE.—ELEVEN AND A HALF ACRES OF GROUND in the borough of Bellevue, on the Beaver Road, four miles from this city, only thirty minutes' drive. Good Brick House, two story, and finished attic; good stable and carriage house; abundant fruit of all descriptions. Enquire of D. M. EVANS, at Allegheny Suspension Bridge, or 159 Sheffield street, Allegheny City. my28:r91

FOR SALE.—TWO ENGINES AND TWO BOILERS, with everything connected with them all complete and in good order. Apply to SULLIVAN & FREKER, No. 58 Seventh avenue, Pittsburgh. mh16:-TF

FOR SALE.—GOLDEN WEDDING AND FAMILY CIRCLE WHISKY, free or in bond, all ages to suit the trade. Each barrel shows by Government stamp its age.
JOSEPH FINCH & CO.,
my2 189 First avenue, Pittsburgh,

FOR SALE.—A DESIRABLE COUNTRY RESIDENCE WITH 5 ACRES OF GROUND, situated on Spring Hill, just outside the city limits of Allegheny, and within 20 minutes' walk of the Allegheny Postoffice, on which is erected a two story double brick house with slate roof, containing ten rooms and finished attic. Also, a good frame stable, carriage house, cistern, spring house with never failing spring convenient to the house and stable, underground drainage, &c. There are also on the premises 3,500 grape bearing vines, 150 fruit trees, and many small fruits of various kinds. This property is beautifully located for a country residence, being just outside the city line, and having a fine view of Lawrenceville and the surrounding country. For further particulars inquire of
BECKFIELD & NIEHAUS,
my21:r51 61 and 63 Ohio street, Allegheny.

FOR SALE.

Three Acres of Land,

Beautifully located, within half a mile of the city limits, on which is erected a small frame house, well finished.

Never-failing spring on premises. Will be sold very low, either on time or for cash. Inquire of

J. M. GAZZAM,

my16 Attorney-at-Law, 96 Fifth avenue.

FOR SALE.—VALUABLE MANUFACTURING BUSINESS.—The GREAT WESTERN BASKET WORKS for manufacturing Baskets under the Carman Patent. Also, the right to manufacture and sell in Pennsylvania and five other States under the patent. Plant of machinery complete, including splint-cutting machine, circular saws, lathes, steaming boxes, patent forms, &c., &c.

The business has been proved to be a good one, paying large profits. Market readily found, the favorable opinion of the public having been expressed from the first—intelligent energy and enterprise only being required to develop the business and make it an important branch of manufacture.

Very favorable terms will be offered to the purchaser—such as will probably enable an energetic man after the first payment to make the subsequent ones out of the profits of the business.

Satisfactory reasons given for selling, and all further necessary information supplied at 100 FOURTH AVENUE. my16:r30

FOR SALE.

BRICK HOUSE

2 story, of 6 Rooms, Bath Room and Kitchen; Range in Kitchen; Hot and Cold Water and Gas throughout; Lot 21 feet by 90 feet, adjoining which is a Lot 24 feet front by 90 deep. Situate 66 Boyle street, Allegheny. For terms, inquire of R. ROBINSON, Real Estate Agent, 75 Federal street, Allegheny.

Also, LOTS

At Hoboken Station,

Nine miles up West Pennsylvania Railroad. Now is the time to secure a cheap and desirable Lot at this beautiful place. Lots are 25 by 120, 40 by 160 feet, 1, 5 and 10 acres. Inquire of R. ROBINSON, Real Estate Agent, 75 Federal street, Allegheny city. ap11-p8

"TO SECURE a domestic market, there is no other expedient than to promote manufacturing establishments."—*Hamilton.*

GREECE has the impudence to transport her criminals to this country. We think a short stop to that sort of business should be made.

WE SHALL THANK our country readers for any information they may send us relative to the crop prospects. Their letters need not be long, so that they give accurate intelligence, they will prove of interest to our readers.

THE COMING World's jubilee of music at Boston promises fair to prove the grandest event of the character the world has ever witnessed. Professional musicians from all parts of the world will participate in the joyful occasion of harmony.

WE hope that harmony will to-day prevail in the Conventions. There are no serious questions that will arise which need call for violent discussion. All that is wanted are fair conduct all around and a good strong ticket to the support of which all can stand.

A VIOLENT tornado swept through portions of Iowa, Illinois and Wisconsin a day or two ago, doing much damage to crops and property. Its track was marked by frightful swaths—trees were uprooted, fences prostrated, and, in one or two instances, bridges swept away and houses unroofed. The damage was confined to only a few counties, fortunately.

ANDY JOHNSON and "Hangman" Foote (recently pardoned) are candidates for Congress, in Tennessee, on the Greeley ticket. Horace, doubtless feels proud of his new found friends and champions. Foote says, now that the Government has acted magnanimously in pardoning him, he will not withhold his services from his country. He is perfectly willing to serve a term or two in Congress—for his country.

OUR ESTEEMED friend, Lewis Bollman, Esq., of Monongahela City, has furnished us with a specimen of the celebrated Indiana block coal, or Laminate. Any persons desirous of inspecting it can do so by calling at our sanctum. It consists of numerous layers of bituminous coal interlaid with layers of pure charcoal. It is said to be a perfect natural combination for furnace fuel, and as such is invaluable to our manufacturers.

GERRITT SMITH, the old abolition pioneer, is still on the right and honest path. He recently wrote the following sensible and truthful words of advice on the present situation:

> "The country cannot yet afford to have the Democratic party come into power. But the success of either the Cincinnati or the Baltimore Conventions will be the success of that bad party.
>
> The Philadelphia Convention will doubtless nominate President Grant. The anti-slavery battle is not yet fought out, and until it is we shall need Grant's continued leadership."

A FEW days ago, when Senator O. S. Ferry defeated General Hawley in Connecticut for the United States Senatorship, the Greeley papers hailed it as a Liberal victory. The following letter will tend to dissipate any belief of that kind, as it proves Mr. Ferry is an uncompromised Republican:

> "The truth is that, since the adoption of the last three amendments to the Constitution of the United States and the closing up of the war questions, our foreign relations and our domestic policy in matters of finance and revenue are again assuming their natural prominence. To entrust these great interests to an Administration made up and controlled by Mr. Greeley would be mere midsummer madness. The administration of the State Department during the last three years has preserved for the nation an honorable peace, in the midst of the most delicate and embarrassing complications, both with Great Britain and Spain, while that or the Treasury has steadily enhanced the public credit and promoted the business interests of the country. I do not appreciate the wisdom of those who, instead of all this, would press an untenable claim upon England at the risk of war; would recognize the belligerency of the Cuban insurgents, contrary to every principle of international law; and would diminish permanently the specie reserves in the Federal Treasury to ten or twelve millions of dollars, at whatever hazard to the public credit.
>
> "There are other matters to which I might allude, but these are perhaps enough. You and I will continue in the old Republican track. If new issues arise we will think and act as our convictions of expediency and duty require, and always be hopeful for the future of our country.
>
> "Yours truly, O. S. FERRY."

THERE is often more truth than poetry in the remark heard sarcastically sometimes from city swells in rainy weather, "Yes, it certainly *is* capital weather for young ducks." The terrible lack of rain from which portions of New York and other States have suffered, make it a matter of great rejoicing that Providence has so timely come to the aid of the sufferers. This country has been lately a fearful prey to the fire fiend, and all must rejoice that these conflagrations in New York State and elsewhere are likely to be put a stop to. Then the great need the crops had of rain was a matter of serious consideration to the farmer; and the agriculturist, and horticulturists, were alike interested with ourselves for the speedy downfall of refreshing showers, and now it has come with some energy. The heavy wet yesterday almost gave us a spasm of regret, when we thought of the boots and pants of our city magnates, which would be got up regardless of expense for the opening of the new City Hall, and of the injury they might suffer in health from the effects of wet feet; but we thought of the Irishman who once drove us in a very heavy rain storm, and to whom we addressed the query of "Pat, are you not very wet?" who replied, "No, yer honor, but shure I'm very dry!" which we took as a very palpable hint for some of the "ardent." Now nice ripe juicy fruit can be relied on, good and heavy crops, and, in fact, all nature will smile under the influence of this refreshing, and invigorating down-fall of rain. We heartily rejoice and join with the thanks that will no doubt be publicly offered for the boon! It may be very obnoxious to the fashionable and exquisite portion of our population to be kept at home and thus debarred the privilege of displaying the last new duck of a bonnet or other new article of dress, but city folks must remember the vast good this splendid outpouring of rain is doing to thirsty mother earth and what a liberal return s he wil give us. What pleasure will the magnificent green verdure afford us in our suburban walks and drives, and already the possessors of the luxury of a suburban home greet us in the mornings looking bright and happy and tell us what good the rain did their way, and with the splendid flower in their button-hole, no doubt placed there by some loving wife or daughter or friend, they strut off to their offices and stores, and we go to our dingy rooms with a sigh, and soliloquize sadly on the pleasures that some men enjoy over others; not that we hav'nt loving wives and daughters and friends in the city, we put this explanation in for fear of a curtain lecture, but it is the green magnificence of the fields and valleys we sigh for.

THE FOLLOWING from a late London letter is a fair specimen of the words from the old country which are daily reaching us. These European letter-writters are, generally, among the best acquainted and most intelligent of foreigners, who are prone to watch the development of sentiment, and reflect the same in their letters sent to American journals. The editor of *Harper's Weekly*, we think it was, who wrote that Greeley's nomination was received by every man, woman and child in this country "with a broad grin." This "broad grin" appears to be infectious, as all Europe are laughing now at the odd freak of the Liberals, in taking "Uncle Horace" from his cabbage beds and *Tribune* proof-sheets, and making him *their* candidate. The best of the joke is, that Uncle Horace assumes the burden with so much gravity, as though the whole world were not laughing at the idea. Here is what a London correspondent says to the Chicago *Journal*:

GREELEY.

"So Horace Greeley is to be the next President of the United States! Is he? I have seen a great many strange things happen in the course of a long and variegated life, but, if I live to see that event occur, I fancy it will be the strangest of all. We are fully well up in this country in your politics, and understand tolerably well the *personelle* of your public men, but I think that Horace Greeley is the very last man who would have been thought of as a possible candidate to be seriously selected by any party. If it had been almost any one else—for instance, Mr. Chase or Mr. Charles Francis Adams, we should not have been at all surprised, and could have recognized in it the stuff of which Presidents ought to be made, but we should as soon have dreamed of the renowned editor of the London *Daily Telegraph* being selected as Prime Minister of England, as of the nomination of Mr. Greeley for the Presidency by a party that professed to be powerful enough to insure his election. Of course it is none of our business, and, as far as we know, Mr. Greeley might make as good a President as has been seen during the present century, but the whole proceeding strikes us as odd—so very odd, indeed, that we cannot help wondering why George Francis Train was not the happy individual on whom the final suffrages of the late convention were bestowed. The only conclusion we can arrive at is that the affair was not serious, and that the object of those who effected the tide in Mr. Greeley's favor was really to insure thereby the triumphant re-election of the present President. This suspicion is confirmed by the fact that the vote of Illinois is said to have finally secured Mr. Greeley's nomination.

THE WORK BEFORE US.

The County Conventions, six in number, meet to-day in this city. The primary elections of Saturday last succeeded, generally, in sending a good class of citizens to represent the different districts. Very important duties will devolve upon these assemblages, and we have little doubt that their labors will be satisfactory to the party, and, generally speaking, to the people. There are two judges, two Congressmen, seven members of the Legislature, six delegates to Constitutional Convention, a Sheriff, two Clerks of the Courts, a Recorder, a Register, a Commissioner, and a Director of the Poor to be designated as the choice of the Republican party of the county, and we hope that the honors will fall upon competent and worthy men, whom it will be a pleasure to support. Last year much dissatisfaction was engendered by the fact that proper discrimination was not had in the conventions in reference to the locality the selections were made from. For instance, the city of Allegheny, containing a population of fully sixty thousand persons, was deprived, we will not say for what reason, of all representation in the Legislature. Where it is possible to avoid such a thing, the delegates should make an effort to do so, not that we would insist that location is the first and most important thing to be looked to in the selection of candidates. On the contrary, we deny that it is such; but a due regard for harmony and for the sake of discreet policy within the party organization, all sections should, where it can be done without detriment, receive a share of the party distinctions. Pittsburgh, being the stronger corporation, and exercising the greatest single influence in each convention, should not seek to monopolize all the offices, as such a course may possibly weaken the party vote in the remaining districts, where our large majorities usually come from. We are not writing in the interest of any candidate, for we would urge first and foremost, that the primary object should be to find the most competent; after that, the question of availability properly comes in.

We feel that the interests of our party are in safe hands, in these conventions, and we shall offer no advice, except that all personal feeling should be laid aside, and the best interests of the county and party be attended to. Give us a good, strong ticket; one which will poll the full party vote, and we will elect it this fall by the usual majority. At no time, in the last ten years, has it been more important, to act with great caution and deliberation in its selection. It will not be denied that some troublesome dissatisfaction exists within the party, and we expect the good work done to-day to do much toward allaying it; and we call upon every good Republican to put aside, for this campaign, at least, any mere personal prejudice he may have, and join heartily in the support of the whole ticket. We must carry Pennsylvania, and in order to do so, we must carry Allegheny county by an old fashioned Republican majority. All hands to the work from to-day on.

OCEAN TRAVEL.

The arrival of the Adriatic steamship in New York, last week, traversing the ocean in the unprecedented space of seven days and thirteen hours, is a matter of wonder to all. This only shows the wonderful and rapid strides science is making. It is but a few years back, within the memory of hundreds, that vast desert of ocean took months to travel over, with all the wretchedness and discomfort a passenger in a sailing vessel is subject to. Now it is a matter of a few days, and a man can write and tell his friends confidently that he will be with them next week, though thousands of miles intervene. Whilst on this subject it will not be out of place to regret the mishaps that year after year take place on that vast expanse of water, and the number of near and dear friends that have found silent and watery graves therein. To what can this be attributed, may we ask? The fearful fate of the City of Boston, of the President, of the Pacific, and numbers of others who were swallowed up in a way that no mortal can inform us, are warnings that seem to be lost on some one who is surely responsible. Now, lately we have news of the total wreck of two steamers, one belonging to the Cunard line, a company famous for its never having lost a ship before, and whose officers and seamen are models for the world in navigation and prudence, and the other a German vessel whose owners and men were models of cautiousness and efficiency. The telegram which announced the disaster, however, tells us that in the case of the Baltimore the German vessel, its passengers were saved through the instrumentality of the English coast guard and life boat service, as the gearing of the Baltimore's boats was "out of order" so that they couldn't get a boat to float. This is positively fearful, suppose that this accident had occurred at sea away perhaps hundreds of miles from shore, in tempestuous weather, like the unfortunates already mentioned that have gone silently to destruction, we would have to record another mystery of the mighty deep.

If the officers of these steamers neglect precautions of such vital importance surely there ought to be some officer appointed to examine these vessels, and to see that everything is in order for use at a moment's notice before the ship leaves port. The travel now over the Atlantic Ocean has become enormous, it is truly an international ferry on a vast scale, and when we hear of such gross carelessness as that of the Baltimore's officers it causes a shudder, and we ask ourselves who will be the next victim or victims. Probably now, if the Boston's boats had been free many a desolated heart and home would be rejoicing instead of weeping, or the relatives of other victims to carelessness of this kind, would be happy. It is of great consequence that we should not be continually reminded of these things, but act at once, as far as we are concerned, to apply a remedy, sure and effectual. In England they say nothing will ever be done to remedy accidents until a Bishop or lord is killed or seriously hurt; let it not be so here; prevention is better than cure, and is a good household motto that all can follow.

BASE BALL.

A Resume of the Season Thus Far.

While base ball, the most exhilarating and healthy of out-door sports, is lying in an unhonored grave in this vicinity, to which it has been hastened with untimely speed, in the East it still flourishes and is treated with a favor by the public thereabouts that has not been exceeded in former years. Not a week day now passes without from one to four first-class games being contested, and the newspapers of the cities where the clubs are upheld have a considerable portion of their space devoted to details of games and miscellaneous items of interest in the same connection.

There are about a dozen clubs entered as contestants for the championship this year. The list embraces the Boston, Athletic, Cleveland, Baltimore, Troy, Mutual, Eckford, Atlantic, Olympic, and National clubs, and the Mansfields, of Middletown, Ct., a local organization, also aspires to the honor. The Boston nine is composed of McVey, catcher; Spalding, pitcher; Gould, 1st base; Barnes, 2d base; Schafer, 3d base; George Wright, short stop; Leonard, left field; Harry Wright, center field, and Fred. Rodgers, right field, with Birdsall and Ryan as substitutes. The Athletics have Malone, catcher; McBride, pitcher; Mack, 1st base; Fisher, 2d base; Anson, 3d base; McGeary, short stop; Cuthbert, left field; Tracy, center field; Meyerle, right field; Reach, and Sensenderfer, substitutes.

Cleveland presents J. White, as catcher; Walters, pitcher; Carleton, 1st base; Sweasy, 2d base; Sutton, 3d base; Holdsworth, short stop; Hastings, left field; Allison, center field; Pratt, right field; Pabor and Simmons, substitutes. For Baltimore, Craver as catcher; Matthews, pitcher; Mills, 1st base; Pike, 2d base; Fisher 3d base; Radcliffe, short stop; Yorke, left field; Hall, center field; Higham, right field, and Carey substitute. The Troy club has Allison, catcher; Zettlein, pitcher; McAtee, 1st base; Wood, 2d base; Bellan, 3d base; Force, short stop; Steve King, left field; Gedney, center field; Martin, right field; Nelson and Hodes, substitutes. In the Mutual list of players are Mills, catcher; Cummings, pitcher; Start, 1st base; Hatfield, 2d base; Boyd, 3d base; Pearce, short stop; Bechtel, left field; Eggler, center field; McMullin, right field, and Fulmer, substitute.

The other clubs are inferior in strength to those mentioned. In the Olympics are Waterman, Brainard, and several others of the old nine, while the Atlantics have Ferguson and McDonald. The Athletics are a tremendous batting team, and have exhibited their proficiency in that line of the art by scoring 34 runs against the Baltimores, 25 against the Troys, and 27 against the Forest Citys. They have also beaten the Bostons one game, and have thus far won four games and lost none. The Red Stockings have beaten the Mutuals twice, the Baltimores once, and the Troys once. They have also skunked the Eckfords in a full game. The Cleveland boys have lost games to Baltimore and Philadelphia, and have won none as yet. The Baltimore have beaten the Mutuals, Troys, and Forest Citys one game apiece, and have lost two games to the former club, and one each to the Athletics and Bostons. The Troy Club have beaten the Mutuals, and been beaten in Baltimore, Philadelphia and Boston. The Mutuals have won two balls from the Baltimore Club, and have lost singles to the Baltimore and Troy clubs, and two games to the Bostons. The attendance at most of the games has ranged in the neighborhood of five thousand persons, and, if the interest is kept up at this rate, a majority of the clubs will come out at the close of the season with ful exchequers.

The Lost Cause.

On the evening of Wednesday, May 1, in Montgomery, Alabama, Col. Paul H. Hayne, an ex-officer of the rebel army, delivered an address. This is published in full in the Montgomery *Advertiser and Mail*, and indorsed in a card signed by a number of citizens of Montgomery who speak of it as "a classic and eloquent effort," and request that it be printed "to give an opportunity to those who did not attend to profit by its valuable and instructive teachings." Let us see what the Montgomery gentlemen consider "valuable and instructive teachings" for the masses of the South. Almost at random we quote from this patriotic address. Col. Hayne says:

> Remember, we fought not *alone* for political independence, *not* alone for the "peculiar institution," but to defend and sustain, as I have already hinted, the vast yet harmonious system of conservative order, embracing, as it does, the amenities of the heart and the restraints of the disciplined reason, the duties, loves, responsibilities of the fireside, the obligations of religious communion and Christian practice, keep free from the thousand heresies of a shameless atheism, and still more shameless credulity; and, lastly, those high ethics of sociology, those canons of a social observance, whose purity and refinement in regulating the intercourse of men with men, above all, in defining the proprieties of intercourse between the sexes, investing Southern society with an idealism and beauty peculiarly its own:
>
> —"the light that never *was* on land or sea,
> The consecration and the poet's dream!"

While principles like these remain to be contended for, how dare we designate our "Cause" as "Lost?" With liberty stifled, and the main stay of Republicanism—"State Rights"—obliterated for the time (for the *time*, I say, since truth cannot be murdered by cannon balls nor the forces of organic law in government be transfixed by the bayonet), we have yet so much that is invaluable left to our guardianship that we should not feebly despond.

Has the *casus belli* of the South ever been more clearly defined? Again the orator says:

> * * * The conflict is not over, nor have its "issues" perished! When the banner of Conservatism was veiled at Appomattox, the great battle was adjourned simply—carried over to a different field, dominated by different forces."

The battle adjourned from the field to the ballot-box, where victory is hoped for with the aid of the Democrats and Liberal Republicans. Here in brief have we the issue of the coming campaign. A vote against the regular Republican nominee is a vote for the cause which was only adjourned temporarily by the surrender of Lee.—*Press.*

THERE is every prospect at the present time of a very large emigration from England and Scotland this season. The wages now paid to good mechanics and workingmen will undoubtedly stimulate the movement. An Edinburg paper bearing date of the 8th inst. says: "Many masons, particularly, have recently left Aberdeen and adjoining counties, and the farm servants have set on foot the collection of a fund of £15,000 to enable those of their brethren to emigrate who may desire to do so, and thus reduce the home supply of labor to the extent which is calculated by the servants to insure a higher rate of wages to those who remain.

AMONG the peculiar and excellent institutions of Boston is the Flower Mission. This organization was formed several years ago, and is renewed each spring. The mission has established headquarters where flowers are brought by all who have an inclination, to be distributed throughout the city to the sick in hospitals and in the wretched homes of the poor. The sight of flowers must rejoice many a poor lingerer in the hospitals and in the miserable homes with the memories of green fields and thoughts of the country.

Pittsburgh Bank for Savings,
No. 61 FOURTH AVENUE, PITTSBURGH,
CHARTERED IN 1862.

OPEN DAILY from 9 to 4 o'clock, and on SATURDAY EVENINGS, from May 1st to November 1st, from 7 to 9 o'clock, and from November 1st to May 1st, 6 to 8 o'clock. Books of By-Laws, &c., furnished at the office.

Board of Managers—George A. Berry, President; John Scott, James Park, Jr., Vice Presidents; D. E. McKinley, Secretary and Treasurer.
A. Bradley, J. L. Graham, A. S. Bell, Wm. K. Nimick, John S. Dilworth, F. Rahm, G. Follansbee, Joshua Rhodes, S. H. Hartman, Robt. C. Schmertz, Christopher Zug.
John H. Bailey, Solicitor.

THE wool clip in the United States during 1871 amounted to 177,000,000 pounds, placing us first upon the list of wool producing countries in the world. England produced 159,969,000 pounds; Australia, 152,500,000 pounds; Le Plata, 138,070,000 pounds. Our wool clip of 1860 was only 60,264,918 pounds. We have, therefore, nearly trebled our annual wool product in eleven years. From the great increase in the number of sheep that has taken place within twelve months we anticipate a still greater aggregate product in 1872. The control of a vast wool production has enabled our wool manufacturers to make this wonderful progress of the past five years.

A NEW Spanish weekly paper, *El Americano*, which was to have been brought out in Madrid, has been published in Paris, under the editorship of Señor Varela, with the assistance of the most distinguished Democratic writers of Spain, and some of the best writers of France. Among these latter are mentioned M. M. E. Laboulaye, E. Girardin, E. Renan, J. Michelet, G. Sand, Louis Blanc, Victor Hugo, etc. Prof. Paolo Mantegazza, of Italy, will contribute notes on Science. The paper is splendidly illustrated.

THE Cumberland and Pennsylvania Railroad Company have recently placed about one thousand tons of steel rail upon their road, and we now learn that they have ordered another thousand tons, which are being delivered and placed upon the road as rapidly as possible. The addition of this quantity of the best quality of steel rail will put the road in splendid condition, and better enable it to endure the constant wear of such heavy burthens as are daily passing over it. The new steel rails are from Harrisburg, Pa.

CHINESE news advices from Yokohama state that the foreign papers there claim that the late conspiracy was participated in by 40,000 men, the retainers of dispossessed Daimios, the object being to seize the Emperor and carry him back to Kioto and then rise and exterminate foreigners. The government discovered the plot, beheaded a number of the leaders and completely restored order.

Sickness of Forty Years' Duration Cured.

The cure related below is one of a very remarkable kind, on account of its long duration, and is well worthy of the attention of all those who may be afflicted with chronic disease of any kind, showing clearly that all such cases can be cured. It is that of Jacob Wagner, a respectable farmer, aged 63 years, of New Sewickley township, who has been in gradually failing health for a period of about forty years. The disease manifested itself by a continued cough and a wasting state of health, which, about the beginning of last October, culminated in an attack which showed that the lungs were becoming seriously affected. Mr. Wagner, in this state of his case, applied to Dr. Keyser, of this city, who, by a system of medicine of a restorative kind, has completely cured him and restored him to a state of health to which he has been a stranger for many long and weary years. His cure is thorough and complete, and evinces an amount of skill and perseverance in the treatment of such cases, by Dr. Keyser, which is rarely if ever attained in a life time. The cure was chiefly effected by Dr. Keyser's Lung Cure, and is another of the many instances of the wonderful restorative power of that medicine, in the cure of every disease of long standing, especially those in which the pulmonary organs and the blood are deteriorated.

Dr. Keyser's office is at 167 Liberty street, in the rear of his Drug Store, from 10 A. M. until 1 P. M., and from 3 until 6 P. M., and on Saturday's at night.

A treatise on Lung Diseases sent wherever it is wanted.

A WHOLESOME STIMULANT THAT IS ABSOLUTETY PURE.

Physicians throughout the world agree as to the necessity for diffusive stimulants in medical practice, but complain, and with good reason, of the impossibility of obtaining them pure. The difficulty here presented would be a serious one indeed, if the class of agents was limited to the adulterated liquors and wines of trade. It vanishes, however, when the absolute purity and extraordinary restorative properties of Hostetter's Bitters are taken into consideration. As a stimulant the article is absolutely free from everything objectionable; but this is only one of its recommendations. If it were nothing more than an excitant, its effects would be fleeting. It might refresh and revive the system for a few minutes, but could produce no permanent benefit. The stimulating elements of the Bitters is a means, not an end. The tonic, anti-bilious, depurative and aperient vegetable juices combined in the preparation are the agents that impart vigor and regularity to the weakened and disordered organization, the spirituous principle being chiefly used in diffusing their influence through the system, and otherwise facilitating their operation. Alcohol, even in its purest form, is not so much a medicine as a motive power, by which the specifics of the vegetable kingdom may be brought to bear upon the debilitated and disordered organs that require renovating and regulating; and it is in this way that the pure essence of rye incorporated in Hostetter's Bitters increases the efficiency of the purely medical ingredients.

The Gardner Fire Extinguisher.
The Ed. Journal of the Franklin Institute, April, 1872, says: "The Gardner Extinguisher seems to us to be well worthy of commendation, inasmuch as it combines all the good qualities of other machines with the special advantages of greater convenience of form, security of the stop-cocks from the action of the materials employed and of the perfect control of the stream of gas, and we can indorse it as the most practical of any yet made public."
The Gardner is rapidly superseding the old-fashioned extinguishers.

MEDICAL.

DR. WHITTIER,
No. 296 PENN STREET, Pittsburgh, Pa
A regular graduate of Medicine, as his Diploma at office shows, has been longer engaged in the treatment of Venereal, Sexual and Private Diseases than any other Physician in Pittsburgh.
Syphilis, Stricture, Orchitis, all forms of Hernia and Rupture, all Urinary Diseases, and Syphilitic or Mercurial Affections of the Throat, Skin or Bones are treated with unparalleled success.
Spermatorrhœa, Sexual Debility and Impotency, the result of self-abuse in youth, sexual excesses in maturer years, or other causes, which produce some of the following effects, viz.: Nervousness, debility, blotches, dizziness, dimness of sight, confusion of ideas, evil forebodings, aversion to society, loss of memory and sexual power, rendering marriage improper and life miserable, are permanently cured. Sealed pamphlet relating to the above sent for two stamps. Correspondence confidential; consultation free. It is self-evident that a Physician who treats thousands of cases every year must acquire great skill; many Physicians knowing this, recommend patients to his care. Medicines sent everywhere.
Office Hours, 9 A. M. to 9 P. M. Sundays, 1 to 3 P. M.
MANHOOD! WOMANHOOD!
"Books for the million!" Who may marry, who not, Why? Impediments, causes and cure. Every father, mother, young man and young woman should read them. 100 pages. Sent in SEALED ENVELOPE; 15 cents each; both for 25 cents.
Address DR. WHITTIER, 296 Penn street, Pittsburgh, Pa.

POLITICAL.

☞REPUBLICAN
County Conventions.
THE REPUBLICAN VOTERS OF ALLEGHENY COUNTY are requested to meet at the usual places for holding Elections in the several Wards, Boroughs and Townships, on
SATURDAY, May 25th, 1872,
in the Cities and Boroughs, between 3 and 7 o'clock, P. M., and in the Townships between 4 and 7 o'clock, P. M., and elect one delegate from each election district in the Cities and Boroughs by ballot, and in the Townships as the voters may select, to each of the following
County Conventions.
To be held at such places as shall hereafter be designated, on
TUESDAY, May 28,
AT 11 O'CLOCK, A. M.
CONVENTION No. 1—Legislative and Constitutional.
No. 2—Congressional and Judicial.
No. 3—Sheriff.
No. 4—Clerk of Courts and Clerk of Orphans' Court.
No. 5—Recorder and Register.
No. 6—Commissioners and Director of the Poor.
The Primary Election shall be held, as far as practicable, by the Republican Members of the Election Boards in the different districts; and, where the Republican members are a minority of the Regular Board, the voters present are authorized to elect enough additional Republicans to complete the Board.
The Chairmen of these Conventions will appoint the County Executive Committee to serve for the ensuing year.
By order of the Republican County Executive Committee.
H. W. OLIVER, Jr., Chairman.
HENRY M. LONG,
THOS. H. PHELPS, } Secretaries.

DAILY GAZETTE.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, May 27, 1872.

The local demand for loans is not so great as it was last week. Some of the banks still complain of being tied up, and find it difficult in keeping up their legal reserve, and at the same time do their customers equal justice, in affording the accommodation necessary to the successful prosecution of their business. Outside of the banks there is a large amount of capital, but the holders, who think that money is like any other commodity, worth just what it will bring, take advantage of any lack of accommodation on the part of the banks, and extort the last cent in the way of interest they may by the exingencies of the case be able to obtain. Ira B. McVay & Co., bankers, report that they have sold all the bonds they had of South Pittsburgh. With the close of the month it is expected that money will be much easier, as a large class of borrowers, who just at this time of the year need considerable outside means, will be out of the market, and the continued ease in the eastern markets will enable the banks to get rediscounts. These which will allow them to extend their lines, and add to the volume of the circulating medium already here, and, by the time summer sets in, be as accommodating as the trade could wish. The business of the city still keeps up, and were it not for the dread of that myth, the *future*, which has often broken men down who were really able to stand up, if they had cast their fears behind and kept their hopes before them, there would be no lull, but a continued increase in the trade of this city. It is true that among financial men, there are few of the lion-hearted. Most men when they get money, also get the image of poverty before them, and always keep it staring them in the face, and instead of being benefitted by being possessed of riches, they become miserable, miserly and narrow-minded, thinking that they shall have no more chance, no more opportunity to do or accomplish what they have already done, and instead of trusting that power which they profess to believe in, they hold back, and effect by their gloom and morbidness to a greater or less extent all their surroundings. Pittsburgh, to-day, is twenty years behind what it ought to be, and at whose door does the fault lie, if not at theirs, who by luck or accident got hold of the reins of its financial institutions? The blame has often been put upon the managers of the press, but without warrant. The newspapers of this city, without taking special credit to the GAZETTE, have always, from its earliest history, proclaimed the natural advantages of this locality over that of all other sections.

From the *Mining Journal*, which is well posted in the trade of the Lake Superior region, we extract the following items:

"Pig iron is rapidly accumulating on the docks at Marquette, the reports the past week being several thousand tons.

"The Leland furnace on Grand Traverse Bay was totally destroyed by fire on the 1st of May. The fire was occasioned by an explosion of gas. Loss, $100,000, with no insurance.

"The Lake Superior Iron Company will at once commence the erection of a new blast furnace.

"It is stated on good authority that 800 miners are on their way to this country to work in the iron mines of Lake Superior.

"Lake Superior Red Specular Ore has been generally contracted for the season of 1872 at $9 to $9,60, delivered free on board of vessels at Cleveland, Ohio. Terms, $3, cash, balance four months from average time of delivery—May, June, July, August, September, October and November. Lake Superior Soft Hematite Ore sells for $7,50 to $8, with same terms of payment as the Red Specular, *i. e.* $3 cash, and balance four months. The rolling mills pay about $2 advance over the foregoing rates."

In provisions there is but little doing. Prices remain unchanged. Flour is dull and prices have fell off some little. There is not so much demand for wheat as in the early part of last week, and sellers are unwilling to submit to a reduction. In other articles, such as sugar, molasses, coffee and spices, we can learn of no important transactions.

Traffic in real estate is very active, and instead of the want for desirable locations for dwellings and manufactories being supplied, as many thought it would be ere this, it seems to be daily increasing.

Geo. B. Hill & Co., Brokers, cor. Wood Street and Third Avenue, furnishes the following quotations of bonds and stocks from their latest advices by Telegraph.

4-20 Jan & Jy '67	117⅛	5-20 Jan & Jy '68	117

NEW YORK, May 27, 1872.

Money easy at 5@6. Gold steady at 113⅛@113¾; closing at 113⅝@113¾. Loans 3@5. Clearances 24,000,000. Treasury disbursements $275,000. Probable export on Wednesday $1,250,000. Governments ⅛@¼ higher, closing strong. State bonds quiet. Stocks opened strong, with a slight advance, but were sold freely by bears most of the day; Pacific Mail falling from 5¼ per cent. to 72½; Hartford and Erie to 7¼; Northwestern common to 73¾; Indiana Central to 39¾, and Ohios to 46½. Late in the day there was a recovery of ½@1 per cent. in active stocks and the market closed steady with the general list very near the opening figures. There are rumors of injunctions restraining Pacific Mail officers from lending funds of the company and from purchasing stock for the company under the recent Albany legislation. Rumors that forged Erie share certificates are afloat are unconfirmed. Much of the unsettled condition of the stock market, however, is due to the fact that no reliable information has yet been received of the acceptance of the treaty by the British Government.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, May 27, 1872.

ASHES—Soda Ash is quoted at 4¾ to 5 for common; refined, 5½@6; nitrate, 5 to 5¼; pots, 10; pearls, 11.

APPLES—Continue dull, and the season is about over; we can report occasional small sales within the range of $4 to $5 per bbl.

BUTTER—Continues dull with a supply largely in excess of the demand, and prices are weak and drooping; we reduce our quotations to 15@18 for good to prime solid packed, and 20@22 for prime to choice roll; solid packed, is in good supply and exceedingly dull, and country shippers should make a note of this.

BEANS—Scarce and in demand, and prices are well sustained, $2,50 to $3,25 per bushel, according to quality.

BROOM CORN—Continues very dull, but dealers anticipate an increased demand soon; prices nominally unchanged, 5 to 8 cents per lb., according to quality.

CHEESE—Is in good demand and prices are well sustained; Dairy, 11@12; Factory, 13½@14; Goshen, 14@14½.

CARBON OIL—Is quiet and prices are nominally unchanged—jobbing trade is always light at this season of the year.

COUNTRY BACON—Shoulders, 4½ to 5; Clear Sides, 6 to 6½; Hams, 8 to 9. Country Lard, 7 to 8 cts, according to quality and condition.

CONCENTRATED LYE—$5,50 ℔ case.

CANNED GOODS—Peaches (3 lb cans) $6,00 to $7 per case; Tmatoes $4,50@5; Corn, $5,50@7,00, according to quality and brand.

CEMENT—Louisville $2,50 to $2,75; Calcined Plaster $4,50; Cleveland white Lime, $2; eastern, $1,75.

DRIED FRUIT—Apples scarce and wanted—may be quoted at 8 to 10 cts. Peaches continue dull; sales, in a jobbing, way, at 9 to 9½ for halves; 7 to 8 for mixed; 6 to 7 for quarters, and 15 to 20 for peeled. Blackberries, 14 to 17; pitted Cherries, 27 to 30; unpitted, 6 to 8 cts.

EGGS—The market is better, and, with an increased demand and diminished receipts, prices are higher; we now quote at 15 to 16 cts.

FEATHERS—We continue to quote at 78 to 80 cents for No. 1, in round lots, and 5 to 7cts additional in a jobbing way. Mixed stocks 40 to 60 cents, as to quality.

FLOUR—The market is easier and dealers generally report a decreased demand, but prices are still maintained; we continue to quote, in a jobbing way, at $8,75 to $9,25 for fair to choice spring wheat, and $9,50 to $10 for good to choice red winter wheat. Rye Flour quiet and unchanged; $5,75 to $6.

GRAIN—There is considerable Wheat offering, and the market in consequence is considerably easier though prices are without quotable change; $2,00 to $2,05 for red, and 3 to 5 cents more for white, according to quality. Some well informed operators are inclined to the belief that the market will soon react again; that the farmers will soon be busily engaged with their crops, and that the offerings will of necessity fall off, and, if so, prices will tend up again. However, the future of the market is involved in great doubt, and it is difficult at present to form an idea as to what course it will take. Oats continue quiet but unchanged; we are reported sales of prime white at 55—mixed may be quoted at 54. Shelled Corn, is also quiet but unchanged; sales free in elevator at 68. Rye is quiet, and, in the absence of sales, we continue to quote at $1 to $1,05. Nothing doing in Barley.

GROCERIES—The heavy rain of to-day put a damper on business, consequently we have to note a dull market on all kinds of groceries. The impression prevails that refined sugars will advance. The better grocery grades of raws are firmer, and on Demerara's an advance of ⅛ is felt. Coffee firm at our quotations, which are about the prices asked for the same goods in job lots in the east. Syrups, steady. Rice, firm.

REFINED SUGARS.—Standard Hards, 13; A Coffee, 12; B, 11¾; Ex C, 11⅝; C Yellow and Circle C, 11⅛. These quotations are for straight brands.

COFFEE.—Rio—Choice, 25@25½; Prime, 24@24½; Good, 23½; Fair, 23. Java, 28. Roasted, pure, 28; lower grades, 25@26.

RAW SUGARS.—Choice New Orleans, 11@11¼; Prime, 10¾; Good, 10; Fair, 9¼. Choice Porto Rico, 10¾; Prime, 10¼. Demerara—Choice, 11¾; Good, 11¼.

NEW ORLEANS MOLASSES.—Choice, 80; Prime, 75; Good, 70; Fair, 65.

SYRUPS.—Fancy White Drips, 70; White Honey, 69; Havemeyer & Elder's, 60@62; other grades, from 40@50.

RICE.—Carolina—Choice, 9½; Prime, 9¼; Good, 9. Rangoon, 8@8¼. Patna, 8½@9.

SPICES.—Grain Pepper, 24; do Pimento, 16; Cassia, 50; Cloves, 25; Nutmegs, $1,25.

HAY—Is still reported dull, but with continued light receipts, prices are still maintained; we continue to quote at $27 to $32, as to quality—the bulk of the sales at $28 to $30.

OILS—No. 1, extra lard oil is quoted, in a jobbing way, at 78@80 and No. 2 at 60 to 62.

POTATOES—Continue very dull, and holders generally are still anxious to realize; the demand is mainly for small lots, and we continue to quote at 60 to 65 per bushel for mixed, and 70 for prime Peach Blows.

POULTRY—Live Chickens may be quoted at 75 to 85 cts per pair, by the coop.

PEA NUTS—Sales at 8½@9cts per lb.

PROVISIONS—Plain shoulders, 6¼cts; sugar cured do, 8cts; ribbed sides, 8cts; clear rib, 8½cts; clear, 9cts. Breakfast Bacon, 10½@11cts; plain sugar cured hams, 12; do, canvased, 12¼. Lard; in tierces, 9¾; in kegs, 11¼; in buckets, 11½. Mess Pork, $15. Dried Beef, 17½. Ham sausage, 10.

RAGS—Sales at 4@4¼cts per lb.

SALT—Is still quoted at $1,85 per bbl by the car load, and $2 in a jobbing way.

SEEDS—The jobbing trade in Clover and Timothy Seeds is over. Flaxseed is in demand at $1,90 to $1,95.

TALLOW—Rendered 7½ to 8 cts.

WHISKY—Highwines unchanged; sales, in a jobbing way, at 90@92 cts.

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, May 27, 1872.

Following shows the number of cattle on sale the points from which they were shipped, and the names of the shippers:

CATTLE.

In addition to the above, there were four cars driven over from the Central (East Liberty) Yards, making 44 cars in all, but of these there two cars of stock steers bought in the west for some Washington County stock growers, so that the actual number on sale footed up 42 cars, or counting 18 to the car, 756 head, a slight increase over the number on sale last Monday. Trade opened up slow and unsatisfactory to sellers, owing in part to the drenching rain which set in early in the day, but subsequently there was more activity, and at the close there were but few left over unsold. The Chicago cattle, and of the 42 cars on sale, 36 cars were from that point, it was claimed cost an ⅛ to ¼ more than those on sale last Monday, and as there was no advance, drovers claimed, and with good cause, too, that the increased cost, in the absence of a corresponding advance, was the same as a decline; in other words, their stock cost more than that on sale last week, while when it came to selling, no higher prices could be realized. The quality of the offerings was good, the largest proportion consisting of good to prime butcher's stock; there was however, a fair supply of the commoner grades, and, in consequence, the butcher's had no difficulty in making selections, as as there was a full supply of all the various kinds. It is worthy of note that the majority of our best butcher's are buying thinner cattle than formerly, and this accounts for the fact that this kind are selling more readily than fat cattle, and at relatively better prices.

Prime to extra pony steers weighing from 1,200 to 1,800 lbs. may be quoted at 7¼ to 7½, and good 1,000 to 1,100 averages at 6¾ to 7cts. There were very few bulls on sale to-day, and there is not much inquiry for stock of this kind. Stock steers also quiet; so far as we could learn, there was not a single buyer in attendance today, and, in the absence of sales, we continue to quote at 4½ to 5½ according to quality, averaging from 800 to 1,000 lbs.

There were but few cattle left over to-day, certainly not over 2 to 3 cars, and the probability is that but for the drenching rain, which was not without its effect in curtailing the demand, the entire supply would have been absorbed.

Keefer & Beyer sold 2 cars of prime to extra butcher steers at 6¾ to 7⅝.

Rothchilds & Hartman sold 3 loads, from Chicago, at 6½ to 7 cts.

E. Katz sold one load of fair to prime butcher steers, from Chicago, at 6 to 7¼.

Isaac Zeigler sold one car of fair to good butcher stock at 6¼ to $7,10—reports market only fair.

Jacob Lobman sold one load, from Chicago, at $6,50 to $7,30—one car left over.

Hazlewood & Blackstock sold 34 head of butcher steers, from Chicago, at $6,45 to $7,12; one load of Ohio stock, on commission, at $5,12 to $6,50.

Sadler, Havens & Co. sold 62 head of good to prime steers, from Chicago, for L. Schamberg, at 6½ to 7¼.

Orr & Williams sold 35 head of same as above, from Chicago, at 6½ to 7 cts.

Holmes, Lafferty & Co. sold 50 eead of fair to prime at 6 to 7 cts.

L. Schamberg sold 25 head of fair to medium stock at 4 to 6¾.

S. Marks & Bro. sold 63 head, from Chicago, at 6¾ to 7⅝; says prices are ¼ lower than last week.

S. Lowensteine reports one load at 6 to 7 cts.

Sol. Trauman sold 36 head of good to prime Ohio steers at 6½ to 7¼—reports ⅛ to ¼ off from last week.

Jacob Neeley sold 3 loads of butcher stock at 6½ to 7¼—says market was slow.

C. F. Laiblin wholesaled 31 head of good Ohio steers to W. Wernz at $6,30 to $6,53; also, 7 fresh cows at $25 to $50.

M. Varner sold 44 head of butcher cattle at 5 to 7¼; 46 good 900 stock steers at $5,15.

SHEEP AND LAMBS.

The offerings were unusually large to-day, footing 762 head; of these 383 were sheep, and the balance, 389, lambs; notwithstanding the increased supply, the market was active and prices were fully sustained. Sheep sold at from 4½ to 6½ ℔ ℔—one bunch of common wooled Sheep brought 7 cts. Lambs may be quoted at $2,50 to $4,50 per head, according to quality and condition. The feeling among operators generally is that stock of this kind is not likely to be much cheaper this year, in consequence of the fact that farmers are indifferent about selling.

Andy Stakely sold 27 spring lambs at $2,75 to $4 per head.

Wm. Humes sold 11 sheep at 6 cts, and 53 lambs at $2,75 to $4 per head.

Flinner & Sheitemantle sold 30 good Butler county sheep, averaging 100 lbs, as 5 to 5¾; 70 lambs at $2,50 to $3,60 per head.

S. Vandever sold 25 common wool sheep at 7 cts; 30 lambs at $2,55 to $3,30.

John McMoreland, of Butler county, wholesaled 60 lambs at $2.95 per head.

Henry Nagle sold 30 sheep, averaging 106 lbs, at 6¼ cts; 15 lambs at $2,25.

Adam Eckert sold 58 lambs and 30 sheep; Adam says he does not want the people in the country to know what he gets for his stock.

John F. Neeley sold 114 head of good Beaver sheep at $4 per head to 6½ cts ℔ ℔.

Neeley & Fairley sold 23 Armstrong county sheep at $2,50 to $3,50; 90 lambs at $2,50 to $3,75.

J. W. Stewart sold 80 good to prime Ohio sheep at 6 to 6½ cts.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE,
MONDAY, May 27, 1872.

The market continues very dull and prices are weak and drooping. Crude opened at $3,95 per bbl, at Parker, but, later in the day, it was offered at $3,92½. Refined also weak and a shade lower; May quoted at 23, and the same figure will answer for any delivery in June; July nominal at 23½ to 23⅝.

Oil Barrels steady, and, with a limited stock and light receipts, prices are fully sustained; we continue to quote at $1,90 for city, and $1,80 for country.

Wheat — The Situation, Present and Prospective.

The Chicago *Tribune* contains the following in regard to Wheat: Wheat was quiet, but averaged 1c per bushel higher, though Liverpool was again quoted 1d per 100 lbs. lower. There was not, really, much demand, but holders were strong during the greater part of the session; weakening towards the close, when it was reported that arrangements had been made to ship 150,000 bushels from Milwaukee to this city. There is a possibility of doing this, as Milwaukee has ranged about five cents per bushel below Chicago for several days past. It may seem singular under this circumstance that Milwaukee should now be receiving a great deal more wheat than Chicago, and the only reason that can be found for the fact in the willingness of the officials of certain railroads to discriminate in favor of Milwaukee, in the matter of freights. At the same time it is stated that wheat was selling yesterday in Winona at $1,55 per bushel, and in McGregor, Iowa, at $1,50 per bushel, the country all around both of those places being reported bare of wheat, with a good demand from Southern points, where the new crops will not be available till the 16th of July. It certainly seems strange that the higher prices here do not bring in more liberal receipts, if there is much surplus in the country back of us. In regard to the feeling on the other side of the Atlantic, there is a wide diversity of opinion. Indeed, there were two sets of telegrams to-day, one quoting Liverpool higher, and the other reporting it lower. It is impossible to tell whether England wants much of our wheat or not before her next harvest, but the general outlook indicates that she is largely short, and must fill up from the United States. It is this expectation that is now sustaining prices. Speaking of the anticipation of lower prices of wheat in New York on the receipt of supplies near at hand. Trafton's latest New York circular says: "It should be remembered that the quantity is not large,—only 19 loads of wheat, and much of that has been disposed of to arrive. With our stocks reduced to about 670,000 bushels, it is evident that on the 1st of June the quantity of wheat in sight will fall far below the wants of the trade up to the next harvest, which now promises to be a very late one, and we fear it fall much below the average, unless we have a protracted and general rain. * * * We have nothing for export, and should shippers continue to take it freely during June, we should have reason to apprehend extreme prices later in the summer." This, and other advices, indicate that the total supply of the Erie Canal to New York will turn out to be about 450,000 bushels.

Live Stock.

NEW YORK, May 27.—Beeves for the week 7,400 against 8,500 the previous week. On sale to-day: 152 cars at Communipaw, 134 at One Hundredth street and 8 at Weehawken, making 4,750. Average quality just fair; market moderately quick at prices of last Monday, or half cent better than Friday; everything sold; Texans and other thin stock at 11c; fair to good 12@12½c; prime 13c, averaging 12c; 9 cars Cherokees, 6½ cwt, sold at 11½c; 7 cars good 7 cwt, Illinois, at 12½c; 18 cars, same weight at 12@13c; some bulls at 5@5½c. Sheep and lambs: total 21,100 against 14,700 last week, the greatest increase in lambs, which are much lower, or 11@13½ for medium to prime Jerseys. Sheep are very dull to-day, many remaining unsold; they are worth 6¼@7½c; a car 82 lbs Ohio selling at 7c; 2 cars 89 lbs 6½c; thin lots would only bring 6c; there were 5,200 on sale this morning. Hogs: 37,200 fat this week, against 28,000 last week; market tame, at 5⅜@6¼c for dressed, those of 160 lbs selling at 6½c.

PHILADELPHIA, May 27.—Beeves dull this week and prices firmer; sales 2,100; extra Pennsylvania and western steers sold at $7,75@8,25. Sheep in fair demand; sales 15,000; at $5,50@6,75; fair to choice $2,50@3,50 for stock sheep. Hogs dull; sales 3,400 at $5@7,50 per cwt.

Dry Goods.

NEW YORK, May 27.—Domestics in every grade are very quiet and without further alteration. The decline in brown sheetings appears to have increased the dullness of trade and inclined buyers to hold off. Printing cloths are quoted at 7⅞c to 8c for spot by 64x64, which is the lowest figure at which extras can be done. Prints very quiet. Spun goods of all kinds are slow. The New York *Bulletin* says a further advance is expected on some grades, should cotton continue at its present figures. Carpet worsted warps have sold fairly and are quoted: No. 12 90c to 95c per lb.; fine worsted No. 26 $1,65 per lb.; No. 34 $1,90; double filling 60c for *list*; inferior do 45c, and upward at auction. Straw goods brought fair prices for the season; the following prices were realized for a line of Manacaibos in gents' hats: M B $9,50, $13,50, $14,25 and $19,50 for X.

Chicago.

CHICAGO, May 27.—Flour dull. Wheat dull and declined; No 2 spring $1,51¾@1,52 cash; $1,52 for seller June, and $1,51¾ for seller July; nothing done in other grades. Corn dull; No 2 mixed 45½@45¾c cash; 45¾@46 for seller June, and 47c for seller July; rejected 43½@43¾c. Oats firm; No 2 41¾c. Rye dull; No 2 80c. Barley quiet; No 2 fall 57@60c, according to location. Whisky firm at 88c. Pork dull; mess $12,50 cash, and $12,75 for seller July. Lard: 8⅝ cash, and $8,70 for seller July. Bulk meats quiet. Bacon unchanged. Cattle dull and drooping; $5,50@6,62 for good to extra. Hogs firm at $3,85@4,10.

Cincinnati.

CINCINNATI, May 27.—Cotton steady; low middling 23½c. Flour firm; family $8,75@9. Wheat steady; red $1,90@2,03. Corn dull and lower; 51@52c. Rye firm; $1,04@1,06. Oats dull; 40@47c. Groceries and oils unchanged; Butter firm; fresh 18@22c. Cheese dull but unchanged; 10@12c. Eggs firm; 16c. Mess pork dull; $13,00 for regular. Lard quiet and unchanged; steam 8⅝@3⅝c; kettle 8⅝c. Bulk meats quiet; some inquiry for sides; clear rib at 7⅝c; boxed held at 7½c; shoulders 4¼c; sides 6¼@6⅛@6⅝c. Hogs firm; $3,80@4,25. Receipts 2,900 head. Whisky excited; 88c.

New Orleans.

NEW ORLEANS, May 27.—Corn 75@76c. Oats 56@57c. Bran $1,20@1,25. Pork dull; mess $13,12. Bacon dull; 5½@7¾@8¼c.; hams, sugar cured, scarce; 11¾c. Lard quiet; tierce packers, 9c.; refined 11@11½c. Sugar quiet and firm; fair to fully fair 8½@9⅝c. Molasses firm; inferior 30@32½c.; common 35c. Coffee: ordinary 16½c.; fair 17¾@18c.; good 18¼@18½c.; prime 18¾@19c. Cotton strong; good demand at full prices; sales 3,500 bales; good ordinary 21⅝c.; low middlings 22⅝c.; middlings 23¼c.; receipts 1,238; exports to Liverpool 3,530; stock 61,556.

Louisville.

LOUISVILLE, May 27.—Bagging—Demand limited, and held firmly at 17@17½c. Cotton firm and higher; middling 24½c. Flour inactive and unchanged. Wheat quiet and unchanged. Corn 67@68c. Rye steady at $1,00@1,05, from store. Oats in fair demand at 50c. Provisions quiet; mess pork $12,75; bacon shoulders 5¼c; sides clear rib 7⅝c; clear 7¾c. lard 9@10c. Whisky firm at 86c.

Philadelphia.

PHILADELPHIA, May 27.—Flour steady; Minnesota $9,25@9,75; State, Indiana and Ohio $9,25@13,25. Wheat—Demand light and the market favors buyers; State and western $2,10@2,20. Rye—State and western held at $1,10. Corn quiet; yellow 69c; mixed western 69@69½c. Oats unchanged; western white 58@59c. Mess pork $14,50.

Toledo.

TOLEDO, May 27.—Flour dull. Wheat dull and lower by 3@4c; No. 1 white Michigan $1,95; amber Michigan $1,87½. Corn firm; high mixed 54½@54¾c; new mixed 54c; yellow 54½@55c; white 59c. Oats dull and lower; No. 1 45½c; No. 2 45c; Michigan 46c. Pork and lard unchanged.

Cleveland.

CLEVELAND, May 27.—Flour quiet and unchanged. Wheat dull; No. 1 red winter at $1,93; No. 2 $1,83. Corn firm and in fair demand at 57c. Oats held at 46c. Refined petroleum firm at 19½@20c.

Milwaukee.

MILWAUKEE, May 27.—Flour dull. Wheat dull, No. 2 $1,52; No. 2 $1,40. Oats dull; No. 2 40½c. Corn dull; No. 2 mixed 46c. Rye dull; No. 1 81½c. Barley dull and nominal; No. 2 fall 65c.

Detroit.

DETROIT, May 27.—Flour quiet and unchanged. Wheat dull and lower; extra $2,05@2,07; No. 1 $2,00@2,08; amber $1,89@1,90. Corn dull and lower; 54c. Oats dull; 46c.

Cotton Markets.

NASHVILLE, May 27.—Cotton steady; low middling 23c.

MEMPHIS, May 27.—Cotton dull; low middling 23c.

ORDINANCES.

[36.]

AN ORDINANCE—Granting certain privileges to the Pittsburgh, Allegheny and Manchester Passenger Railway Company.

SECTION 1. Be it ordained and enacted by the city of Pittsburgh, in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, That the Pittsburgh, Allegheny and Manchester Passenger Railway Company shall have permission to extend their tracks from their present terminus to the north side of Liberty street, all the work to be done under the direction of the City Engineer, and the same shall be subject to all the provisions of the Acts of Assembly and Ordinances of Councils authorizing the construction, and use of said Railway in the city of Pittsburgh. Provided, however, that Councils reserve the right at any time to order the removal of said turn-table on three months' notice, should the same prove in the opinion of Councils to be a nuisance.

SEC. 2. That any Ordinance or part of Ordinance conflicting with the passage of this Ordinance at the present time, be and the same is hereby repealed so far as the same affects this Ordinance.

Ordained and enacted into a law, in Councils, this 29th day of April, 1872.

A. H. GROSS,
President of Select Council.

[No. 35.]

AN ORDINANCE—Authorizing the Citizens' Passenger Railway Company to erect a wooden building.

SECTION 1. Be it ordained and enacted by the City of Pittsburgh, in Select and Common Councils assembled, and if is hereby ordained and enacted by the authority of the same, That the Citizens' Passenger Railway Company be and is hereby authorized to erect an addition to their building in the Seventeenth ward, to be composed of wood, and extending in the rear of the building heretofore erected, not exceeding seventy-five feet.

SEC. 2. That any ordinance or part of ordinance conflicting with the passage of this ordinance be and the same is hereby repealed so far as the same affects this ordinance.

Ordained and enacted into a law in Councils this 29th day of April, A. D. 1872

A. H. GROSS,
President of Select Council.
Attest: E. S. MORROW,
Clerk of Select Council.
H. W. OLIVER, JR.,
President of Common Council.
Attest: H. M. McMASTER,
Clerk of Common Council.
Recorded in Ordinance Book, vol. 3, page 207.

RIVER NEWS.

The river was about stationary at this point last evening, with scant four feet in channel. There were heavy rains yesterday forenoon, and if they extended to the headwaters of the Allegheny and Monongahela, which is probable, we may look for more water.

The Julia No. 2, from Zanesville, is the only arrival we have to record. The Argosy and R. W. Skillinger, from Cincinnati, are both due, and will probably be found in port this morning.

The West Virginia, Capt. Donaldson, is the regular independent packet for Brownsville and Geneva to-day, leaving promptly at 3 P. M.

The Mollie Ebert, which boat has been laid up at Bellaire for some time, waiting for water, may be expected to arrive here within the next day or two.

The Brill, Capt. Cox, is announced to take her departure for Nashville to-morrow. She is an excellent low water boat, and goes out almost loaded down on four feet.

The Mahoning river, a tributary to the Allegheny, was reported rising yesterday.

—That Memphis editor who thought Abe McPike's plantation a myth is informed that it is John F. Watson's old place, and has on it the fine mansion which General, now President, Grant used as his headquarters during the interesting period when he was in the rear of Vicksburg. It is eighteen miles east of Vicksburg, on the Vicksburg and Merridian railroad, on the Big Black, and in Hinds county, Mississippi. It comprises 6,400 acres, in a fine state of cultivation—800 in corn and 200 in cotton. This small farm stands Col. McPike about $85,000, and would probably sell now for $100,000. He owns another farm of 1,030 acres in Bolivar county, Mississippi, in a fine state of cultivation, and several similar farms in Missouri, Iowa, &c.—St. Louis *Democrat*.

—The Dubuque *Times*, of Thursday, says: "Freights are being cut badly. Notwithstanding the apparent harmony between the two lines, there is a strong rivalry existing, and each are doing their level best to get freight. For the last two days rates, although ostensibly 18 cents to St. Louis, have really been only 13 cents, and to New Orleans 33 cents. Hence the better prices shippers have been able to pay for grain.

—Owners of steamers Dexter, Bismarck and Pauline Carroll have converted them into joint stock, after the manner of the James Howard, the Missouri River, or the New Orleans wharfboats. Each steamer is owned by a stock company, and shares of one thousand dollars can be bought and sold as simply as the shares of any bank or insurance company.

—The St. Louis *Democrat* says: The Exporter is getting along finely. On her present trip to New Orleans she was compelled to refuse hundreds of tons at various points. The building of twenty steamers of the same kind would prove a good investment, we do not doubt.

—Thursday's New Orleans *Picayune* says: "The Edinburgh, not being able to pass inspection, left here light."

RIVER PACKETS.

EVANSVILLE AND NASHVILLE.

FOR EVANSVILLE AND NASHVILLE.—The fine steamer BRILL,
M. A. COX ... Commander,
Will leave as announced on first water.

fe22:h4 S. R. PATTERSON, Agent.

SPECIAL NOTICES.

IMPORTANT NOTICE.

Drs. Jordan and Davieson,

Beg to inform their friends, patients and the public generally, that owing to their increase of practice they are compelled, reluctantly, to discontinue their branch office in this city, and in future are to be consulted only at their HEAD OFFICE,

1625 Filbert Street, Philadelphia.

Just published: PRACTICAL OBSERVATIONS ON NERVOUS DEBILITY AND PREMATURE DECAY, being a synopsis of Lectures delivered at the great Institute of Anatomy, 807 Chestnut street, Philadelphia, to which is added an important essay on MARRIAGE, the whole illustrated with numerous interesting cases from actual practice. This interesting work will be forwarded on receipt of 25 cents, stamps. Address
DRS. JORDON & DAVIESON,
1625 Filbert street, Philadelphia.
All letters will receive immediate attention. Address 1625 FILBERT STREET, Philadelphia.
mh29:s90

DR. A. SLEE, No. 264 PENN STREET.—Longer in the practice of Special and Chronic Diseases than any physician in the city so advertising. All forms of venereal diseases cured in the most thorough and satisfactory manner. Spermatorrhœa or nervous debility, producing blotches, debility, dizziness, nervousness, dimness of sight, noises in the head, indigestion, despondency, confusion of ideas, loss of memory, and which unfit the victim for business or marriage, and ultimately causing consumption and insanity, are permanently cured.

Long standing constitutional diseases skillfully treated, and the effects of mercury completely eradicated.

The Doctor gives particular attention to female complaints, Sterility, Amenorrhœa, Menorrhœa, Dysmenorrhœa, and all irregularities giving annoyance and trouble. A medical pamphlet is published in plain language on venereal diseases sent by mail for two stamps. Correspondence strictly confidential. Hours—9 A. M. to 8 P. M., Sundays excepted. Pittsburgh Medical Institute, 276 Penn street. ja10:d&W

PRIVATE DISEASES.—OFFICE 194 PENN STREET, next door to the St. Clair Hotel. For the cure of all diseases of a private nature in from two to four days, by an entirely new and safe treatment. Also seminal weakness, impotency, and all other diseases of the genital organs, and their prevention. A cure warranted, or money refunded. Has Diploma in the office, and is a regular physician of 20 years standing in this city, and has cured over 10,000 cases.

For circulars, etc. address DOCTOR W., 194 Penn street, Pittsburgh, Pa.

Office hours from 8 to 12 M., from 1 to 3, and 6 to 8 P. M., Sundays excepted. fe27:115

THE GREAT FRENCH REMEDY.—DELAMARRE'S SPECIFIC PILLS. Prepared by GARANCIERE & DUPONT, No. 214 Rue Lombard, Paris, and highly recommended by the entire Medical Faculty of France, are the very best remedy in all cases of Seminal Weakness; RELAXATION of the Genital Organs; "Lime" or "Brick-dust" deposits in the Urine, &c., and all the ghastly train of symptoms arising from Overuse or Excesses. They CURE when all other remedies fail. Price $1 per box. Sent by mail, securely sealed from all observation, by enclosing price to the Sole General Agents for America, JOB MOSES, 18 Courtlandt street, New York. Pamphlet of Advice in each box, or will be sent Free o any address. ja1:eow-T

BRYAN'S PULMONIC WAFERS ARE unfailing in the cure of Coughs, Colds, Asthma, Bronchitis, Sore Throat, Hoarseness, Difficult Breathing, Incipient Consumption, and Diseases of the Lungs. They have no taste of medicine, and any child will take them. Thousands have been restored to health that had before despaired. Testimony given in hundreds of cases. A single dose relieves in TEN MINUTES. Ask for BRYAN'S PULMONIC WAFERS. Price 35 cents. Sent by mail for 50 cents.
Address JOB MOSES,
ja1-d&W-eow 18 Cortlandt street, New York.

ON MARRIAGE—HAPPY RELIEF for Young Men from the effects of Errors and Abuses in early life. Manhood restored. Nervous debility cured. Impediments to marriage removed. New method of treatment. New and remarkable remedies. Books and Circulars sent free in sealed envelopes. Address HOWARD ASSOCIATION, No. 2 South Ninth street, Philadelphia, Pa. ap20-d&S

The Committee reserve the right to reject any or all bids.

JAMES BROWN,
my24:r75 City Controller.

OFFICE OF CITY ENGINEER AND SURVEYOR,
PITTSBURGH, May 23, 1872.

NOTICE TO PROPERTY OWNERS.—All persons owning property in the Seventeenth ward are required to leave the deeds of their property at this office for the purpose of having them registered in accordance with section 4 of an Act of Assembly, entitled, "An act providing for the registry of lots in the city of Pittsburgh."

SEC. 4. It shall be the duty of all owners of houses and lots, or tracts of ground, to furnish forthwith descriptions of their property to the Engineer to aid him in making up his book of plans, and whensoever such descriptions shall have been furnished, and the certificate of the Engineer or his assistant shall be received, no property so returned shall be subject to sale for taxes or other municipal claims thereafter to accrue as lien of record thereon, except as in the name of the owner returned; and after recovery of suit and service of the writ on him, as in case of a summons *scire facias* or other appropriate writ, should this be neglected or omitted, or not complied with as promptly as may be deemed necessary to insure the early completion of the plans; then after one month's notice by public advertisement in the official papers of the city to the owners of real estate in said city not registered, and a written or printed notice shall have been served on the owner or owners, or delivered upon the property, should they fail to have such record made, then and in that case, they shall be subject to a fine of five dollars for each month of such neglect, dating from the termination of said advertisement, and in case the same may be neglected for the space of six months, a lien for the accumulated fines and costs shall be filed and collected as municipal claims are now or may be hereafter by law collected, the said fines to be paid into the city treasury; the notices to parties failing to register property may be given so as to embrace the property of any particular ward or section, or any number of wards or the city at large, at the discretion of the said City Engineer.

A. DEMPSTER,
my24 City Engineer.

OFFICE OF CITY ENGINEER AND SURVEYOR,

DAILY GAZETTE.

CONGRESS.

Action on the Tariff Bill.

PENSIONS FOR DISABLED SOLDIERS.

Adjournment on 3d of June.

CONFERENCE REPORTS.

WASHINGTON, May 27, 1872.

SENATE.

FINAL ADJOURNMENT.

Mr. SHERMAN, from the Finance Committee, reported the House resolution to adjourn *sine die* on June 3d, with an amendment rescinding the order for adjournment on Wednesday, May 29th.

Mr. CHANDLER objected. It went over until to-morrow.

FIVE MINUTE DEBATE.

Mr. SHERMAN offered a resolution applying the five minute rule to debate on the pending tariff bill.

Mr. TRUMBULL objected. It went over.

Mr. SHERMAN gave notice that he would call it up to-morrow.

BILLS PASSED.

On motion of Mr. HOWE, the bill further regulating the construction of bridges across the Mississippi river was passed.

On motion of Mr. SHERMAN, a bill was passed to pay the war claims of Kentucky.

On motion of Mr. WILSON, a bill was passed removing the charge of desertion from certain members of the Twelfth Tennessee Cavalry.

COMMISSIONERS TO VIENNA INTERNATIONAL EXPOSITION.

Mr. CAMERON, from the Committee on Foreign Affairs, reported without amendment the House bill for the appointment of commissioners to the Vienna International Exposition.

Mr. HOWE asked to have Tuesday evening set apart for the consideration of bills reported from the Committee on Claims.

At the expiration of the morning hour the tariff bill was taken up.

Mr. HOWE moved to lay it aside, so that he might enter a motion to assign the evening for the consideration of bills from the Committee on Claims.

Mr. SHERMAN moved to lay Mr. Howe's motion on the table. Lost—yeas 28, nays 30.

Mr. THURMAN renewed his motion to lay Mr. Howe's motion on the table, and it was agreed to—yeas 34, nays 21.

THE TARIFF BILL.

The Senate then proceeded with the tariff bill. Among the amendments agreed to were the following: Providing that the bill shall go into effect on the 1st of July, 1872; on all slack coal or culm, or such as will pass through a five-eighths or one-half inch screen, 40 cents per ton of 28 bushels, 80 pounds to the bushel.

The Senate amendments relating to lumber were agreed to.

Mr. SCOTT moved to exempt pig iron and steel rails from the reduction of ten per cent. Lost—yeas 19, nays 35.

Mr. BUCKINGHAM made a report from the Committee of Conference on the bill for the appointment of shipping commissioners, which was agreed to.

Mr. FERRY (Conn.) moved to except percussion caps from the reduction. Lost.

CONFERENCE REPORTS.

Mr. WINDOM, from the Committee of Conference on the postal appropriation bill, made a report recommending that the Senate recede from the Brazilian subsidy amendment, which was agreed to.

Mr. HARLAN, from the Committee of Conference on the bill relating to lands of the Miami Indians, made a report, which was agreed to.

Mr. CHANDLER made a report from the Committee of Conference on the Steamboat bill, which, with the last letter of the Secretary of the Treasury on the subject, was ordered to be printed.

GOD IN THE CONSTITUTION.

At the request of Mr. TRUMBULL, the Chairman of the Committee on Judiciary was discharged from further consideration of petitions against recognizing God in the Constitution, in favor of the exclusion from office of persons addicted to the use of intoxicating liquors, and against amending the Constitution so as to make foreigners eligible for the Presidency.

At five o'clock the Senate took a recess until 7:30.

DAKOTA GRAND TRUNK R. R.

Evening Session.—Mr. TIPTON, from the Committee on Public Lands, reported the House bill granting right of way to the Dakota Grand Trunk Railway Company, which was passed.

NATIONAL CEMETERIES.

Mr. WILSON called up the House bill amending the act to establish and protect national cemeteries. Passed. It provides that all honorably discharged soldiers and sailors of the United States who may die in a destitute condition shall be entitled to burial in national cemeteries.

THE TARIFF BILL.

Several private bills were passed, and the consideration of the tariff bill was resumed. The report of the Finance Committee to place among the articles on which a ten per cent. reduction of duties is provided, all earthenware, glass and glass ware, unwrought pipe clay, fire clay, Kaolin and Fuller's earth, was agreed to with the exception of earthenware, on which the present duty is retained.

Mr. CONKLING moved to exclude from the ten per cent. reduction leather gloves and mittens, which was agreed to.

The committee recommended an amendment renewing the provisions of the old tariff laws levying an additional duty of ten per cent. upon products of countries east of the Cape of Good Hope when imported from countries west of the Cape of Good Hope, except as to raw cotton and silks.

Mr. SHERMAN stated that those different duties had been levied for the purpose of encouraging American trade with the East, and it was proposed to revise them now, in order to remedy the imperfection of the tea and coffee law. As the law now stood, tea and coffee carried from the East to Europe, and then sent here, would be admitted free of duty. The amendment was agreed to.

The Finance Committee recommended an amendment placing the duty on sulphate of quinia at 25 per cent. *ad valorem*, which was opposed by Messrs. Sawyer and Kellogg.

After discussion, on motion of Mr. CASSERLY, the duty was placed at 10 per cent. *ad valorem*.

The paragraph in reference to books and printed paper being reached, Mr. MORRILL (Vt.) moved to substitute providing that books, full bound in calf, morocco or ivory, with velvet cases and metal clasps, shall be liable to a duty of 60 cents per pound; all other books 10 cents per pound, and newspapers, magazines and pamphlets 11 cents per pound.

Mr. SHERMAN opposed the amendment of Mr. Morrill, also the House provision, which he urged should be struck out, and the present duties retained, with the benefit of the 10 per cent reduction. He said that to levy a specific duty on books was manifestly unjust to every interest concerned. He then exhibited a statement of the weight and value of an invoice of books received per steamer Russia at New York, on the 21st, from which it appeared that a package of valuable and rare books, at 12½ cents a pound duty amounted to about 12¾ per cent. *ad valorem*, while a package of books of inferior value, but which entered into general use, at the same rate of duty, amounted to 79½ per cent. *ad valorem*.

Mr. SCOTT said the book men had a faculty of making this thing appear one way or the other, as it suited their particular interests.

The amendment of Mr. Morrill was rejected.

Pending further discussion, the Senate at 11 P. M. adjourned.

HOUSE.

THE PENSION BILL.

On motion of Mr. MOORE a substitute was adopted for the bill relating to pensions, and the bill, as so amended, was passed. It fixes monthly pensions for disabilities as follows: Loss and total disability of both hands; loss of sight of one eye, the sight of the other having been previously lost; loss or total disability of both feet, or other total disability, rendering the person utterly helpless, $40; loss of one hand or foot, or total disability of the same, $30; any other disability rendering the person unfit for manual labor, $20; loss of hearing in both ears, or any other disability not provided for, $13.

BRAZILIAN MAIL STEAMSHIP SERVICE.

The House then resumed consideration of the conference report on the postoffice appropriation bill, the pending question being on the item increasing the service and subsidy of the Brazilian Mail Steamship line.

After a long debate, partly on special merits of the proposition, partly on the general policy of subsidies, and largely on the injurious effect of the high tariff laws on foreign trade and commerce of this country, the House came to a vote on the question, and the proposed increase of service and subsidy of the steamship line to Brazil was again rejected—yeas 79, nays 112.

The bill was then committed to the same Committee of Conference.

FINAL ADJOURNMENT.

Mr. DAWES moved to suspend the rules and adopt the concurrent resolution extending the session until Monday, June 3, at 12 o'clock. He said he had no doubt unless the session was extended there would be an extra session of Congress, to which there would be no limitation. He believed the Senate would get through with its business by Monday next.

The resolution was adopted—yeas 133, nays 24.

REVISING THE MINT AND COINAGE LAWS.

On motion of Mr. HOOPER, the bill revising the mint and coinage laws was passed under a suspension of the rules.

OLD WAR EXPENSES.

Mr. PERRY, from the Committee on Military Affairs, reported a bill for the re-computation of the accounts between the United States and the several States, growing out of expenditures in the war of 1812, and moved that the rules be suspended and the bill passed.

After discussion, the motion was rejected, two-thirds not voting in the affirmative.

CONFERENCE REPORT.

Mr. PALMER made a conference report on the postoffice appropriation bill, which was agreed to. The Senate recedes from the Brazilian steamship amendment.

REFUNDING DUTIES.

Mr. DAWES, from the Committee on Ways and Means, reported a bill for refunding duties paid on tea and coffee remaining in bonded warehouses or public stores on the 1st of July next. Passed.

LAND IN THE MARKET.

Also a bill for the sale of part of the Fort Gratiot Light House reservation at Port Huron, Michigan. Passed.

SHIPPING COMMISSIONERS' BILL.

Mr. CONGER presented a conference report on the shipping commissioners' bill, which was agreed to.

The House adjourned.

THE CAPITAL.

Council with Indians.

PEACE, GUNS AND AMMUNITION WANTED.

Additional Treaty Article.

WASHINGTON, May 27, 1872.

INDIAN VISITORS.

The Sioux Indian delegation held a council today with Secretary Delano. Red Cloud, Red Dog and other chiefs made speeches. The speeches of the different chiefs lasted altogether fully an hour, but the principal points were a desire to remain at peace and a request for presents of guns, ammunition, horses, &c., and better facilities for receiving their supplies sent to the agency.

When the Indians had concluded, Secretary Delano briefly spoke to them, saying he was glad to welcome the chiefs and braves, and to hear that they were friendly. They were informed that the Commissioner of Indian Affairs will provide for them some horses, which they will receive when they go back, and will let them have more ammunition, as their agents shall advise. The chiefs will also have some guns given them, and will be provided with some money for their expenses while here.

The Indians were much gratified with the remarks of Mr. Delano. They will call on the President to-morrow.

THE ADDITIONAL TREATY ARTICLE

It has been reliably ascertained that the vote of the Senate advising and consenting to an additional article to the treaty of Washington was 43 against 8. Although the President and Secretary Fish were on Saturday night made acquainted with the action of the Senate, it was not until to-day that they were advised of the fact. Communications were, however, previously sent to England. No official reply has yet been received, but private advices from distinguished parties say there is no reason to doubt that the British Government will assent to the modified article.

WEATHER PROBABILITIES.

Clear and pleasant with northerly winds will prevail on Tuesday north and north-west of the Ohio Valley; clear and clearing weather with northerly to westerly winds over the South Atlantic, Middle and New England States; an area of cloud and possibly threatening weather extend eastward over Arkansas and the lower Missouri; clear weather will continue over the Gulf States.

ACTS SIGNED.

The President has signed the following acts: In relation to the Dakota Southern Railroad Company; to provide for the abatement or repayment of taxes on distilled spirits in bond destroyed by casualty; to authorize the Secretary of War to accept the peninsula in Lake Erie, opposite the harbor of Erie, Pa.

NEW YORK.

A Fatal Explosion.

ANOTHER DEFECTIVE BOILER.

Mass Meeting of the Workingmen.

AN EPIDEMIC OF STRIKES.

NEW YORK, May 27, 1872.

FATAL EXPLOSION.

The tug Epsilon exploded her boiler in East river this afternoon. Six lives were lost; viz., Capt. Hallenbeck, Engineer Pollenbeck, a deck hand of the same name, Patrick McCormick, fireman, and two other deck hands. Another engineer, B. Carrie, was injured. The cook and one hand are unhurt. At the time of the explosion the boiler of the tug was perhaps one hundred and seventy-five feet beyond the pier line, from which point parts were thrown a distance of four hundred to five hundred feet, landing on the pavement of South street. The persons known to be wounded are Captain Charles H. Mitchell, of Sandy Hook, pilot, both legs fractured; John Bishop, mate of the ship Seminole, and a resident of Boston, compound fracture of left arm; Oliver Anderson; Bernard Carrie; James Parsons, a resident of Brooklyn; and W. J. Keese. The boat was blown to splinters above the water, and the hull sunk at once. The largest piece yet found is the pilot's wheel, which is uninjured, save by a few scratches.

THE LABOR QUESTION.

A mass meeting of workingmen was held in the City Hall Park this afternoon in favor of the eight hour movement. About 1,500 persons were present. Addresses were delivered by J. Connolly, F. Marshall, McDermott, Hawkins and Jno. Ennis, and appropriate resolutions were adopted. Workmen have been sent to Boston, Philadelphia, Chicago, &c., to induce co-operation.

The committee of the Eight Hour League who have in charge the furniture trade, were in session to-day. The upholsterers report that 250 new members joined their organization since the strike began.

Mr. Kuhn has returned from a tour through the Western States, and reported the trade in that section fully resolved on enforcing the eight hour law. The piano makers struck to-day for eight hours work at the same pay they have for ten hours. The pattern makers are actively at work for the success of their movement, and form a permanent league to-night. The workmen of the Etna Iron Works have gone out.

COLUMBUS.

The Garner Murder Case.

COLUMBUS, O., May 27.—In the Garner murder case to-day, after a long argument by the counsel for the defense against admitting testimony as to what Garner had told witnesses as to who had struck him, and whether he expected to live or die, Judge Olds decided that such evidence was competent. The counsel for the defense took exceptions.

A boy testified that on the day of the murder he said he sold a man with a blue overcoat on a hammer, and saw the man place it in his overcoat pocket.

Professor Wormly testified that a chemical analysis had proved that the spots on Barclay's blue overcoat, said to have been worn on the day of the murder, were spots of human blood.

Chas. Lee, an inmate of the jail, testified that Barclay told him he had struck Garner with a hammer in the Alam creek bridge, and then robbed him.

MICHIGAN.

Presbyterian General Assembly.

DETROIT, May 27.—The Presbyterian General Assembly resumed this morning the consideration of judicial case No. 1, involving the constitutionality of electing elders for limited periods of service. The members of the Synod of Philadelphia, against which the complaint is made, have been heard at length in the assignment of reasons for approving or dissenting from the action complained of.

RIVER TELEGRAMS.

EVANSVILLE, May 27.—Cloudy and clear alternately. The barometer indicates a storm; River fallen ten inches. Down—Evansville, 8:30; Henry Probasco, 10:30; Mary Houston, 12:30 A. M.; Jas. E. Rankin, 9; Ajax and barges, 1 P. M.; Mary Ament, 4; Shannon, 5; Quickstep, 6. Up—Rock Island, 11:30; Arkansas Belle, 4 A. M.; Fayette, 9; Tarascon, 10; Jas. Howard, 12; Leclaire, 5 P. M.; generally with fair trips.

ST. LOUIS, May 27.—Arrived—Clinton, St. Paul; City of Vicksburg, Vicksburg; Grand Tower, Memphis; Wolf, Peoria; Baker and Rob, Illinois River. Departed—Harry Johnson, Keokuk; City of Chester, Memphis; Merrill, St. Paul; Garrett, Wheeling. River falling slowly. Weather clear and pleasant.

LOUISVILLE, May 27.—River falling: 6 feet in canal; 4 feet in chute. Warm; partially cloudy. Arrived—Charmer, Evansville; Glasgow and Nightingale, Arkansas river. Departed—Charmer and Nightingale, Cincinnati.

NEW ORLEANS, May 27.—Arrived—Mary Miller, White River; Exporter, Cincinnati. Departed—C. B. Church, with 500 bars of railroad iron, for Cincinnati; Belle Lee, for White River, with 1,000 tons of railroad iron. Weather warm and cloudy.

MEMPHIS, May 27.—Clear and warm. River rising steadily. Departed—Belle St. Louis, Capitol City, Belle Memphis and Indiana, New Orleans.

NASHVILLE, May 97.—River falling; four feet scant on Harpeth Shoals. Weather fair and pleasant. Arrived—Eddyville, Paducah; Lawrence, Cincinnati; Ella Hughes, Paducah. Departed—Eddyville, Cairo; Lawrence, Cincinnati.

LITTLE ROCK, May 27.—Steady rain to-day; river falling; 20 feet out. Departed—Mary Boyd, Memphis.

CINCINNATI, May 27.—River falling; 10 feet in channel. Arrived—Chas. Bodman, New Orleans; Davenport Messenger, St. Louis; R. R. Hudson, Wheeling.

Cotton Markets.

CHARLESTON, May 27.—Cotton strong and unsettled; middlings 24c.; net receipts 565; exports coastwise 1,217; sales 50; stock 8,350.

GALVESTON, May 27.—Cotton quiet; good ordinary 20¼c.; net receipts 34; sales 150; stock 5,742.

SAVANNAH, May 27.—Cotton firm and in good demand; middlings 23¾c.; net receipts 282; exports coastwise 881; sales 450; stock 8,366.

MOBILE, May 27.—Cotton firm; middlings 23@23¾c.; net receipts 127; exports to Great Britain 3,551; sales 800; stock 9,576.

—A dispatch from Santiago DeCuba, of the 18th inst., states that the steamer Edgar Stuart, United States Steamer Wyoming, and the Spanish man-of-war Borgia, left Kingston on the 16th inst. The Edgar Stuart and Borgia soon parted company with the Wyoming, being faster sailers. The Borgia then gained on the Edgar Stuart, but the latter, drawing but little water, steamed in among the shoals and doubled back towards Kingston and disappeared. The Borgia then returned to Kingston and afterwards sailed for Santiago DeCuba. The Edgar Stuart was seen five leagues from Santiago DeCuba and was fired at by the gunboat Gaceta.

—Full particulars have been received of the disaster to the fleet of vessels engaged in the sealing trade. Forty vessels were wrecked. A large number of lives were lost. Most of the victims leave families in destitute circumstances.

—Miss Nellie Grant was the guest of President and Madame Thiers on Monday night.

FOREIGN.

The Supplemental Article.

HOW IT WAS RECEIVED.

Questions by Disreali.

GREAT BRITAIN.

THE SUPPLEMENTAL ARTICLE.

LONDON, May 27.—Dispatches announcing the passage of the supplemental article to the treaty of Washington were received yesterday. The result caused American securities to open firmer with an advance.

The *Times* says the action of the United States Senate is important, as justifying England in her position on indirect claims. America will find it hard to uphold the demands which she herself confesses are doubtful. President Grant, in consulting with the Senate before acting upon the proposition of Earl Granville, has greatly strengthened his own position.

The *Telegraph* says: "America has proved that she prefers justice to national vanity. The love, honest dealing and mutual consideration exhibited by both England and America promises well for the future of the world."

The *Standard* thinks it better to moderate its congratulations and suspend its opinion until it knows more of what the article to be negotiated will commit England to do or pay.

LONDON, May 27.—In the House of Commons this evening Sir Stafford Northcote, in reply to inquiries from the Right Hon. Mr. Bowerie, said his speech at Exeter, in which he made important reference to the treaty of Washington, was correctly reported in the London journals. He repeated what he said in that speech, that he understood when at Washington, that indirect claims were not to be presented. As a member of the Joint High Commission, he deemed it his duty to make a fair and correct statement, but he declined to enter into details without notice.

Mr. Bowerie then gave the requisite notice that he should again put his question.

Sir Geo. Jenkinson, member for North Wilts, asked if it was true that the remaining Fenian prisoners had been released as reported.

Gladstone replied "no," at which there was some laughter.

Disraeli asked whether it was true that the American Senate had adopted the supplemental article to the treaty of Washington; whether that article had been modified; what was the nature of the modification; whether Parliament be permitted to sanction the article, and whether the negotiations would be completed in time for the representatives of Great Britain to appear at the next meeting of the board of arbitration in Geneva.

Gladstone expressed regret at the premature publication of the supplemental article, and intimated that the Americans were to blame in the matter. In reply to Disraeli's inquiries, he said Her Majesty's Government had been informed officially that the Senate of the United States had agreed to the new article. The amendments made thereunto had just been received, and were under the consideration of the Cabinet. The remainder of the Right Honorable gentleman's questions could not now be answered, because the business was unfinished. It would be premature to announce what steps would be taken by Great Britain with regard to her appearance at Geneva until the negotiations with the American Government were ended. The English reply respecting the modifications of the supplemental article would be despatched by cable, and no time would be lost in settling the matter.

Horsman repeated his question whether the amended article would be submitted to Parliament for approval.

Gladstone declined to answer the question without notice, which was given.

EDUCATIONAL.

A Blast on the Text Books—The Central Board Endorsed.

The Mount Albion District School Board has come to the rescue of the Central Board of Edution, as will be seen by the following resolutions passed at a meeting held on Saturday evening:

WHEREAS, The Central Board at its recent meeting made slight changes in the Text Books, (to be used in the schools for the next three years); and

WHEREAS, We believe it to be the duty of the Board to improve and elevate the Public Schools by every means in their power, and as it is self-evident that there can be no improvement without change, we regard it as our duty to sustain the Board in all reasonable attempts at improvement; and

WHEREAS, Certain book publishers and agents are visiting directors and teachers, and denouncing the Board, stirring up strife, and thus endeavoring, by outside pressure, to compel the Board to rescind its action, therefore,

Resolved, That we cordially and fully sustain the Central Board in the changes made, believing it to be an honest effort at improvement; and while we regret that it will entail some expense upon the people, yet we firmly believe that the results will more than justify the expenditure, by more rapidly educating the children, and thus enabling parents to secure the labor of their children at an earlier age, and also be of incalculable benefit to the children.

Resolved, That we regard the selection of books as the duty of the Central Board alone, and we therefore regard the action of book publishers in appealing from the Board to Directors and teachers or lower tribunals and employees as demoralizing in the extreme. For this reason we regard the action of the agent of English & Co. in visiting our schools, interfering with our teachers, endeavoring to get their signatures to remonstrances and thus seeking to embroil them in their disputes and array them against the Board, as an insult to us and an outrage upon the Public School system. We therefore request them, and others on similar business to stay away from our schools in the future.

Resolved, That we tender our thanks to the Central Board for their bold and determined stand in behalf of this necessary unpopular measure (unpopular because involving expense), and we will regard all who voted for the change as the true friends of the public schools, and as men willing to do right, though they may suffer odium and defeat.

Resolved, That these resolutions be published in the city papers, and a copy presented to the Central Board by our representative, C. W. Lewis, Esq.

THE COURTS.

Yesterday's Proceedings.

DISTRICT COURT.

In this court yesterday but one case was disposed of. Samuel Duff vs. Samuel Wilson, verdict for defendant.

COMMON PLEAS—JUDGES STERRETT, STOWE AND COLLIER.

Before Judge Sterrett the case of M. O'Hara et al vs. Dilworth et al, is still on trial.

Motions and cases on the argument list are being disposed of by Judges Stowe and Collier.

U. S. CIRCUIT COURT—JUDGES MCKENNAN AND MCCANDLESS.

The case of the Howe Machine Company vs. Wm. Bower et. al. was withdrawn yesterday, and the jury discharged.

An argument on motion for a new trial in the case of the United States vs. John D. Etzwiler, convicted of passing counterfeit money, was heard. S. A. Purviance appeared in support of the motion, and District Attorney Swoope contra.

Weather.

MESSRS. EDITORS:—We may safely predict the dry weather has broken and rain storms will succeed requisite for health and man's interest. The ground having become saturated with moisture at a fair depth, presents a capital for a hot June sun to operate upon and produce rain or thunder storms. The last Sabbath day was one of those peculiar days seldom observed, called a true storm breeder.

There was a pure blue sky, not a cloud visible above the horizon, while the sun shone, a calm, pleasant and elastic atmosphere, wind north, Coal Hill, appearing but half its distance from us, which is one of Dr. Jenners signs, "The distant hills are drawing nigh." Yet a clear day, the wind at any other point than from N. W. to N. E., is not a sign, the hills appear in their usual place.

The storm of this morning at 6 A. M. was only two hours in its transit from Cincinnati, usually takes six to twelve hours. Some years since I reported a sure sign of a coming rain, but it is presumed it is forgotten. If any one has a record of weather and the thermometer, if he examines, he will find from May 1st to September 1st, if the thermometer stands at 6 to 7 o'clock A. M., between 45 to 60, he will find within the three succeeding days more or less rain, but in the majority of cases on the second day, sometimes on the first, and more on the third day. After a heavy, warm rain, if the blue sky appears in the Zenith, it is supposed it is going to clear, it is the contrary, it will surely cloud over and often rain within two or three hours.

PITTSBURG, May 27, 1872. G. A.

Decoration Day on the South Side.

Post No. 151, G. A. R., have completed their arrangements for celebrating Decoration Day on the South Side, and have announced a very well arranged programme. Flowers can be left at the G. A. R. Hall any time during Wednesday. The ladies are especially invited to meet at the hall to-morrow evening to arrange bouquets and for the decoration of the graves.

Colonel Cline, the Chief Marshal, will be assisted in forming the procession by the following gentlemen: H. C. Matthews, E. W. Timmony, J. M. Conway, Joseph McCoy, Joseph Fisher, Joseph McDonald, V. D. Evans, Thomas Miller and Samuel Bowman.

The procession will move down Carson street to the Brownsville road; then to Zimmerman, Hershberger and Catholic cemeteries; then to the Methodist grave-yard, where the principal oration will be delivered; from here to Concord, where there will be a rest.

The aids, commanding officers of organizations and heads of societies will meet the G. A. R. Committee, in G. A. R. Hall, on Monday, at 7:30 P. M. All organizations will meet at 7 A. M., and the procession move at 8 A. M., Decoration Day.

By order.

COL. ISAAC CLINE, Chief Marshal.
H. C. MATTHEWS, Adjutant General.

A rare opportunity is offered our citizens to buy a carriage, family barouche, spring wagon, harness and horses in to-day's paper. Mr. J. A. McKelvey offers at his Carriage Bazaar, in the Diamond, on to-morrow at auction, bargains of this kind. For particulars see advertisement on first page.

Ivory in coral set.
When twixt parties' lips you see,
SOZODONT, 'tis safe to bet,
Beautifies the ivory. T&S

Straw Goods

In great variety at Wm. Fleming & Co.'s, No. 139 Wood street.

HOME NEWS

The call of the County Executive Committee and the names of candidates for the different offices, will be found on our second page.

We desire to call our readers' attention to the elegant assortment of Gents and Ladies Gold Watches and Opera Chains just arrived at Geo. W. Biggs, No. 159 Smithfield street, four doors above Sixth avenue. Give him a call and be convinced.

Letters Held for Postage.—L. Schnitzer, New York, N. Y., 1c; Michael Flood, New York, N. Y., 1c; Miss Sallie Atkinson, West Liberty, W. Va., 3c; S. H. Sheldon & Co., Cleveland, Ohio, 3c; A. M. McClure & Co., Big Run, Pa., 3c; New York College of Health, New York, N. Y., 3c; Charles Beck, Cleveland, Ohio, 3c; Geo. Burnham & Son, Milwaukee, Wis., 3c; Dr. C. C. Carroll, Meadville, Pa., 27c.

Coroner's Inquest.

Coroner West yesterday held an inquest upon the body of James Wilson, the boy who was killed on Saturday by a collision on the Pittsburgh, Fort Wayne & Chicago Railroad, near the Federal Street Depot, Allegheny. The jury returned a verdict of accidental death, but at the same time recommended that in future flagmen should be stationed both before and behind all trains which were stationary on the track.

Decoration Day at East Liberty.

McPherson Post No. 117, G. A. R., of East Liberty, respectfully request the citizens of that vicinity to send them donations of flowers, wreaths, evergreens, etc., for use on Memorial day. Any contributions of this kind may be sent to the hall of the Post, Bown's building, on the evening of May 30, or if from parties living along the line of the Pennsylvania railroad, they may be put on a baggage car and sent to East Liberty station, addressed to Post 117 G. A. R.

Struck by Lightning.

Mrs. John Herman, an elderly lady, was struck by lightning yesterday morning while working in her garden on Mount Washington. She was taken up in an insensible condition, and Dr. McCormick was called to her assistance, and soon restored her to consciousness. Upon examination it was ascertained that the bolt had struck her on the back part of her neck passing over her shoulder and down her left leg. The track was marked by a burn as if done by a hot iron. Her recovery is very doubtful.

Soldiers' Monument.

The G. A. R. will decorate the soldiers' monument on next Wednesday afternoon. Donations of flowers and evergeens will be left at Tate and Alston's, No. 44 West Ohio street, W. L. McCormick, No. 88 Adams street, or with Hon. A. P. Callow at the Mayor's office. Persons living on the line of the railroad will send their donations on Wednesday morning addressed to W. L. McCormick. All soldiers, sailors and civic societies are cordially invited, and the societies who intend to participate on Decoration Day are requested to send representatives to confer with the Committee of Arrangements at Mayor Callows' office on this evening.

Soldiers' Homesteads.

The recent amendment to the Homestead Act, under which the veterans of our late Army and Navy can secure free homesteads of 160 acres near the lines of the great land grant railroads, by one or two years' residence, instead of five, is very naturally attracting much attention among the soldiers and sailors. Colonies are forming in many parts of the country for the purpose of taking advantage of the new law, while at the same time reaping all the advantages of moving West in organized communities.

The construction of the Northern Pacific Railroad, now completed through Minnesota, has opened to settlers a large body of the best land in the West. This Company offers very important facilities and advantages to soldiers and others seeking western homes, whether they intend to settle on Government homesteads or purchase the Company's land. Its announcement is published elsewhere in this journal.

Tricks of the Clothing Trade.

Alderman McMasters yesterday took two informations against gentlemen engaged in the ready-made clothing business. The first was that of Daniel Lindley against J. Ascheim, and the other that of Frederick Myer against A. Goldburg, the charge in both cases being larceny by bailee. Lindley alleges that he purchased a suit of clothes from Ascheim, who keeps a store on Liberty street. The defendant took the clothes to the back part of the store to tie them up. Upon arriving at home Lindley untied the bundle, but says he found the clothes not at all like the suit which he purchased, but very much inferior to them.

The complaint of Myer is of a similar nature. He affirms that he purchased a suit of clothes from a Goldburg, a clothier on the corner of Market and Liberty streets. The clothes were tied up in the back part of the store, but upon being untied he found them to be entirely different from those that he had bought. A warrant was issued in both cases.

The Storm Yesterday.

In the lower part of the city, at about noon on Monday, an electric storm was of such severity as to attract general notice, but caused no damage that we know of. It was quite otherwise in the upper wards, where, we learn, the storm was of great severity and quite destructive. The wind, which was from the west, blew a hurricane. The centre line of the blow crossed the river near the steel works of Miller, Barr & Parkin, and passed over the estates of Messrs. Thomas Donnelly, J. Harvey Jones, W. W. Wallace, J. W. Duncan, Mrs. Bissell, and others in the Eighteenth ward.

We learn from Mr. Wallace that old wild cherry and walnut trees, 20 inches in diameter, were uprooted on his grounds. Similar evidences of the resistless force of the storm mark the line of its course. Trees were twisted off, fences and chimneys blown down. We have not heard of its effects beyond the places named, but doubtless its pathway is strewn with debris of trees, fences, and we fear also of houses and barns. The citizens are much alarmed, and are fearful that others have not escaped as they have. The oldest citizen has never before witnessed such a storm. Much rain and some hail fell, and the thunder and lightning were terrible.

D. Miller & Co.

We invite attention to the advertisement in another column of the above named enterprising manufacturing firm. They have provided themselves with all needful machinery and tools, and established their factory at the corner of Sandusky street and Parkway, Allegheny, where they will manufacture all descriptions of tin cans. Orders for every description and pattern will be promptly executed. They own the exclusive right to make and vend

"MILLERS PATENT SCREW CAN,"

an ingenious and simple devise, equally adapted for canning all kinds of fruits and vegetables, or ground paints, mixed colors, &c., &c. &c. In these cans a spiral indendation is formed by machine pressure at the upper part of the can and a corresponding corrugation on the lid, a paper gaskit to which the lid screws down and closely fits, supercedes the use of solder or sealing wax. A child can easily and quickly close it up hermentically or open it for use. These cans are so simple, easily used, safe and cheap that they will take the place of all others wherever seen. Messrs. Miller & Co. will make a specialty of this excellent can and supply all dealers on very reasonable terms. Their facilities are such that they can produce this kind of work cheaper than it can be obtained elsewhere, which they will demonstrate to all who will call at their factory.

Anniversary Meeting of the Methodist Missionary Society.

At the last meeting of the General Conference of the Methodist Church, held in this city, in May last, the Book Concern and Board of Missions was removed from Springfield, Ohio, to this place. Yesterday the various churches in the cities were supplied with visiting brethren in the morning as follows: First Church, Pittsburgh, Rev. J. H. Robinson, President of New York Conference; Third Church, Rev. D. Jones, from New Brighton; First Church, Allegheny city, Rev. John Scott, D.D.; First Church, Birmingham, Rev. Wm. Collier, D.D.

The anniversary meeting was held in the First Church, on Fifth avenue, at three o clock, P. M., Rev. John Scott, D.D., presiding. The Rev. C. H. Williams, Corresponding Secretary of the Board of Missions, then read his first annual report, which showed that the people were awakening to an increased interest in the good cause. The subscriptions taken amounted to $800, in addition to what is raised monthly in the churches.

Thrilling addresses were then delivered by Rev. J. H. Robinson, President of New York Conference, and Rev. Wm. Collier, D. D., of the Pittsburgh Conference. The exercises were interspersed with appropriate singing by the choir and the large congregation in attendance. The Board of Missions have a number of missions and missionaries in the far-off West, and also in the South, which are meeting with encouraging success.

The Coming Struggle.

Yesterday the friends of the different candidates for the county offices were trying to count "noses," but up to a late hour last night nothing definite could be arrived at. Hare, for Sheriff, assured us that he had fifty-four delegates so far as heard from, and he felt sure there were five more districts that he would carry, besides several that he stood as good a chance of getting as any of his opponents. If his count be correct he will be nominated on the first ballot, as it takes but (60) sixty votes to nominate. The friends of Mr. Fife were equally sanguine as those of Mr. Hare, and say Hare is counting more chickens than were hatched. There is no doubt but the fight will be bitter to-day, but we hope it will leave no sore places.

For Clerk of Courts, it is generally conceded that McCleary will go through on the first ballot, although Oxley is strong in Allegheny and other sections of the county.

The fight between Beckert and Richardson for Recorder is very bitter, and no doubt will be fought with a great deal of earnestness. The German element of the party demand that Beckert be nominated. Hunter is very confident too that he stands a good show as a compromise candidate.

Again it is urged that, the probabilities are that Hare will be nominated for Sheriff and that will give this city the Sheriff and Clerks of Courts, Clerk of Orphans Court, and Register, as Col. Hilands has no opposition and Mr. Gray for Register will walk over the course easily.

We understand the Allegheny City delegates held a caucus last night, but what they are going to ask for we could not learn.

Mr. McGunnigle, the present Commissioner will be nominated on the first ballot.

Negley for Congress will probably go through by acclamation while Graham will secure the other district beyond any doubt. The Assembly fight is rather mixed.

BREVITIES.

THE Legislative delegates of Allegheny met in caucus last night.

WOODIN, the wounded burglar, is still living, though he is very low.

HON. JEREMY S. BLACK is in the city, and appeared in the U. S. Court-room yesterday.

A TEMPERANCE meeting was held last evening in the First Methodist Church, Allegheny.

A SOUTH SIDE livery stable horse, worth two hundred dollars, was driven to death on Sunday.

LIEUT. SCOTT WARD will act as adjutant of the Greys on their visit to Steubenville on Decoration Day.

THE Philomathic Circle will give an entertainment at the Fifth avenue Opera House on Thursday night.

THE German workingmen's association of this city is organizing for the purpose of enforcing the eight hour law.

THE LADIES of East Liberty are requested to send flowers to the Hall of Post No. 117, G. A. R., for Decoration Day.

MR. NOAH E. FRYE, conductor of a freight train on the Connellsville Railroad, had his foot crushed by a car on Sunday night.

SHERIDAN POST, G. A. R. requests the friends of soldiers buried in Uniondale Cemetery to mark their graves before Decoration Day.

SEVERAL delegates to the Democratic Convention left for Reading last evening, and this morning's train will take quite a large delegation.

A MAN named Horrman attempted suicide on last Sunday by hanging. He was discovered, however, and cut down in time to save his life.

W. H. MECHLING, ESQ., is the gentleman the Democrats have selected to run against the man that will be nominated to-day for the first Legislative district.

THE pun fiend is again on the war-path. Here is his latest effort: "Why is an egg produced this month like a native of Malacca? Because it is a May-lay.

THE Canaan *Reporter* says: "Our early peas came up this spring in two days after they were planted. Anybody's will if they will let the hens run in the garden."

THE Pennsylvania State Convention of Universalists opens its session in the Rev. Van De Mark's church, on Wednesday and will continue in session till Thursday night.

THE committee of the G. A. R., have not given up all hope of securing the names of the dead soldiers. They request all persons who have any names to report them to the committee.

THE Pittsburgh Commandery, with delegates from other commanderies, one hundred and fifty Sir Knights in all, will participate in the Sir Knight's parade in Reading on the 13th of June next.

THE PITTSBURGH OPERA HOUSE to-morrow night will offer a benefit to Mr. Zitterbart, the proficient and painstaking leader of the orchestra. A splendid bill will be offered and the house should be crowded.

THE CORNER STONE the of St. Stephen's (Protestant Episcopal) Church will be laid with religious service, at McKeesport, on Thursday, 30th inst. at 2 P. M. The Rev. Dean Scarborough and other clergy will be in attendance.

THE Committee of Birmingham Councils appointed for the purpose, report that it would be for the best interests of the two boroughs to sell their Smallpox hospital instead of paying $14,000 for the ground on which it stands.

A YOUNG LADY seeking a situation, was interested in an advertisement for some one to do light housekeeping. So she wrote to the advertiser asking where the lighthouse was, and if there was any way of getting to shore on Sunday.

YOU cannot wear anything this season that will not be called stylish, provided it has ruffles enough to make you look like a demoralized ragbaby, and is bunched together sufficiently to look as if you were wearing your whole wardrobe at once.

JUDGES STERRETT AND STOWE will be nominated by acclamation to-day, there being no opposition to them. We understand the Democracy will not put up any candidates against them, knowing there would be no earthly chance of electing them.

THE Water Committee of Allegheny Councils met last evening and awarded the contracts for the addition to the Water Works as follows: Excavation, to John Hastings at $1.25 per cubic foot; stone work to Mr. Hone, at $6.50 per perch; building to Robert Blair at $5,700.

THE name of Thomas Ewing, Esq., one of our most respected and ablest lawyers, will be pressed to-day for a place on the Constitutional Reform ticket. No better selection could be made for he is a true representative of the type of man who alone should be sent to such an important convention.

OF ALL unfortunate men, John Smith is certainly the most unfortunate. He burned himself, breaks a limb, commits suicide, to say nothing of getting killed in half a dozen different ways almost every day. Yesterday he broke a bottle of muriatic acid, which was spilled over him. No injury was done him, however, except to spoil his clothes.

JOHN MCGAWAHAN, one of the twenty-eight defendants in the suit against the shoemakers, has turned the tables on the prosecutors by an information before Alderman O'Donnell, entering a counter-charge of conspiracy against Messrs. Thomas McCartan, Allen, and Francis Shanley. McGawahan alleges that the defendants visited other firms in the city, and endeavored to induce them not to employ him because he was a member of the Crispin Society.

MEMORIAL DAY ON THE NORTH SIDE.

Route of Procession.

The following is the programme arranged at Headquarters, Committee of Arrangements, Allegheny City, May 27th, 1872. Formation and route of procession will be as follows, to wit:

1st. Sheridan Post No. 88, G. A. R., with honorably discharged soldiers and sailors to move at 7 o'clock, A. M., from their headquarters, corner of Beaver Avenue and Junietta street, over the following route, to wit:

Up Beaver Avenue to Penn'a Avenue, up Penn'a Avenue to Fulton street, along Fulton to Sheffield street, along Sheffield to Bidwell, up Bidwell to Western Avenue, along Western Avenue to Irwin Avenue.

2d. The military will form on Ridge Avenue, right resting on Irwin Avenue. The Second Regiment Virginia Veterans, and all civic societies, will form on Irwin Avenue, right resting on Ridge Avenue.

3d. The commanding officers will have their commands in readiness to move at 8 o'clock, A. M., sharp.

4th. At the firing of the first gun of the salute of one hundred guns, the column will move in the following order; to wit:

Chief Marshall and Aids.
Allegheny City Police.
Washington Infantry Cornet Band.
Knapp's Battery under command of Captain McGill.
Washington Infantry under command of Captain Fox.
Heath Zouaves under Captain Barker.
Avery Guards.
Second West Virginia Veterans under Captain Pentecost.
Hon. A. P. Callow and the members of Select and Common Councils of Allegheny City.
Carriages with orators and chaplains.
Civic Societies.
Crippled soldiers and sailors.
Masonic Cornet Band.
Sheridan Post No. 88 G. A. R., with honorably discharged soldiers and sailors.

ROUTE OF PROCESSION.

From Ridge avenue to the Soldiers' Monument and return; along Ridge avenue to Stockton avenue; thence to Federal street; up Federal street to North avenue; thence to Monterey street; up Monterey to Jackson street; up Jackson to Tremont street; up Tremont street to the Cemetery.

The school children under the command of Col. D. L. Smith, will form on North avenue, right resting on Palo Alto street at eight o'clock A. M., and from thence proceed to Uniondale Cemetery.

The procession will receive any wreaths, flowers, &c., which the citizens may wish to donate for the purpose of decorating the graves of our fellow comrades.

By order of
D. W. RIGGS, Chief Marshal,
WM. BLAKELEY, Chief of Staff.

POLICE NOTES.

Brief Mention of Criminalities.

An information was yesterday made by Geo. Hughes before Alderman McMasters, charging Charles Wilson with felonious assault and battery. The parties are boys about fourteen years of age and reside in Shady Side. Wilson, it is alleged, made an attack upon Hughes with a knife, inflicting a severe wound in the arm. A warrant was issued for the arrest of Wilson.

The Mayor had twenty-one common cases before him yesterday, none of which were of any importance.

S. D. McCloy yesterday made an information before Alderman O'Donnel, charging a Mrs. Douglass with keeping a disorderly house, and selling liquor without a license.

A colored man named William Burr yesterday made a complaint before the Mayor charging Lawrence Sproul with assault and battery. Warrant issued.

Where Do You Live?

It is all well enough to live *close* to your business, but it is a good deal better to live *convenient* to it. In the matter of local distances the German idea is far more correct than ours. Ask a German how far it is to any place, and he answers not so many miles but so many hours! Expressing the time required to walk it. *He knows that time is money*, and by telling you in his way the distance to a place he tells you exactly *how much it is worth to go there.* If you have to go often the matter is of importance. For example if it is from your place of business to your home, a very few moments on each trip will amount to a good deal of money (that is if your time is worth anything) in a year. Hence in the matter of locating your Homestead if you rightly understand the case you will know that twenty minutes by rail is nearer than forty by street cars of a many hour's walk on foot.

THE GERMAN IDEA of distance is far more correct than ours. Ask a German how far it is to a place and he tells you not the miles but the hours it takes to walk them! And in this practical age and country, where the dollar is the universal standard of comparison, and where we know so thoroughly that time is money, it is surprising that we have not adopted this form of expressing distance to the exclusion of the geometrical one. Our varied modes of locomotion, walking, driving, the street car—the locomotive, each having a different value, will perhaps account for the fact that we have not adopted this practical German fashion that might well be taken in exchange for some that we have adopted. And hence, also, the quarter acres at North Homestead, where 38 trains stop daily, are preferable to anything. You can get *three miles out* the street car line at the same price; but for the price of a North Homestead quarter acre you cannot get a *first-class* 20 foot lot where the street cars pass so often.

If you are in the mood of buying a place to *make a home* of, see North Homestead first. It will be sold out on the 17th of June.

FALL OF A BUILDING.

A Man Buried in the Ruins.

About four o'clock yesterday afternoon the two buildings, Nos. 196 and 198 Penn street, fell without the slightest warning, causing a terrible crash that drew an immense crowd to the spot. The buildings were owned by Mrs. Morrison and Mrs. Bishop Simpson. The buildings were very old, and had formerly been dwellings, but at the time of the accident about fourteen workmen were engaged in remodeling them to be used as stores. The fronts had been torn out and a mansard roof had been placed upon the structure. Various rumors were in circulation in regard to the results of the accident, one being to the effect that several persons passing along the sidewalk were buried in the ruins and crushed to death. Others stated that several workmen engaged upon the building had been killed.

Search was immediately instituted for the injured persons, and one man was soon discovered who had been buried underneath the ruins. His thigh was badly crushed and he was otherwise severely bruised. He was taken to the Homeopathic Hospital where his wounds received proper attention. The name of the injured man is Patrick O'Hay, an unmarried man, a stonemason, who lives on Washington avenue, Allegheny. Although his injuries are severe it is thought he may recover. Although diligent search was made, no other person could be discovered, and it is thought that O'Hay was the only one injured by the accident. It is certainly remarkable that no one else was injured. It was rumored that a little child who was playing on the sidewalk was buried in the ruins, but the report proved to be false.

—Since writing the above information has been received of the death of the injured man at the Hospital. Previous to his death the victim's leg was amputated. His death is supposed to have been caused by internal injuries. Coroner West empaneled a jury, and adjourned the inquest till this morning at 9 o'clock. The deceased was a native of Ireland, unmarried, and boarded at No. 215 Washington avenue, Allegheny.

Buy Your Hats

At the great one price house of Wm. Fleming & Co., No. 139 Wood street.

One Price Only

Is asked; one price only is ever taken at Wm. Fleming & Co.'s, No. 139 Wood street. The reason of this is that all goods are marked down to the lowest figures at which the firm can afford to dispose of them, leaving them no margin for a reduction. The cheapest goods in the line to be obtained anywhere in the city are offered at No. 139 Wood street. But another great inducement to the trade exists in the superiority of the stock throughout. It has been carefully selected, is unusually large and contains all the novelties that have made their appearance in Eastern cities during the present season. A fair sample of all the goods at wholesale will be found in the retail department, and here too the one price system prevails. By its operation the smallest child can buy as well as the closest and shrewdest buyers, thus insuring equal and exact justice to all customers. City and country merchants and individuals are unhesitatingly recommended to Wm. Fleming & Co.'s, No. 139 Wood street.

All the New Styles

In the greatest profusion, at the fashionable one price hat house of Wm. Fleming & Co., No. 139 Wood street.

J. F. Beilstein.

Our friend J. F. Beilstein who has become equally noted in both the Allegheny and Pittsburgh markets for the invariable excellence of the meats supplied to his multitude of well satisfied customers, we are glad to see, is taking an active part in perfecting "*The Butchers' Association of Allegheny County.*" This new association will hold its first annual Pic-nic at Friendship Grove to-morrow, and as we see Mr. Beilstein is one of its managers we predict a happy re-union of butchers, who are a numerous and respectable class of our community. We hope, as we doubt not, they will to-morrow have a fine time of it.

Panama,

Leghorn, Swiss, Canton and Straw hats, at Wm. Fleming & Co.'s, No. 139 Wood street.

A Sad Falling Out.—It is indeed a sad falling out when, after years of the closest intimacy, the hair parts company with the head. Fortunately the lamentable separation may easily be prevented and the twain more closely united than ever by a timely and systematic use of LYON'S KATHARION, the most potent invigorant of the hair and promoter of its growth and beauty, known to modern pharmacy. It completely obviates the dry and parched condition of the roots of the hair which is preliminary to its coming out, by supplying the precise degree of moisture requisite to its preservation in a healthy state. It is the only true dissolvent and evaporant of dandruff and other impurities of the scalp, whose presence is injurious to the hair. As a beautifier of the head the Katharion has no equal. It not only increases the quantity of the hair, but improves its quality immediately, imparting a lustrous appearance and silky texture which are exceedingly attractive. T:TH:&S

Summer Hats,

Of every description, at the one price house of Wm. Fleming & Co., No. 139 Wood street.

At a recent meeting of the Board of Health one of the members was heard to say if the health officers could only keep the city as clean as housekeepers do who use Mardorf & Co's brooms, it would be telling thousands yearly. Reader, have you tried these brooms? Buy a half dozen for your wife if you have one, and there will be no complaint of dirty floors. These brooms are made of the very best broom corn, and sold at the same price that you pay for a worthless broom. All grocers keep them, take none other.

DIED.

WARD—On Sunday evening, May 26th, 1872, JOHN WARD, in the 81st year of his age.

BUILDING SITES!
BUILDING SITES!
BUILDING SITES!
AT AUCTION.
On Monday, June 3, at 2 O'Clock P. M.,
At the junction of the Lawrenceville and Evergreen Narrow Gauge Railroad, and about one and one-half miles from Bennett Station and old Allegheny Poor Farm, and on the property of Mr. John Rolshouse, will be sold SIX ACRES, in Building Sites of Acre, Half Acre and parts to suit buyers for Building Residences. This property is adjoining the property of Mr. Matthew Cridge, Esq., and near the properties of J. J. Gillespie, Esq., Captain McCollen, Samuel Reynolds and others.
At the same time we will offer the
Fine Brick Residence
Of Mr. ROLSHOUSE, containing One and One-half Acres, finely improved, opposite the Station of the Railroad. This is one of the finest chances yet offered in this locality. A splendid opportunity to secure a home in this locality, the excitement in this neighborhood at present being so great and the completion of the Railroad to this beautiful place will make it one of the safest investments that can be made.
The Railroad to this point has been commenced and being pushed forward rapidly.
The terms will be—One-third down; balance in 1, 2, 3 and 4 years, secured by bond and mortgage on the premises.

Three Each Succeeding Day!
Doors open at 10 A. M. and 1 and 7 P. M.
Hippodrome performances commences at 11 A. M. and 2 and 8 P. M.
Admission to the Seven Colossal Shows only 50 cents. Children under 9 years, half price.
This is positively the largest and most attractive combination of Exhibitions ever known, and remains absolutely without a parallel in the history of the world. In addition to thousands of novel and interesting attractions never before seen, sufficient of themselves to constitute a first-class exhibition, the great collection embraces also four Wild Fiji Cannibals, captives of war, lately ransomed from King Thokambau by Mr. Barnum, at a cost of $15,000. Live Digger Indians from the Yo Semite Valley. The only living Giraffe in America. The only living group of Monster Sea Lions on exhibition, kept in massive water tanks.
A Monster Black Rhinoceros, Black Leopards, Maylayan Tapir, Giant Abyssinian Ostrich, Twenty-four Camels and Performing Elephants, White Deer, Vlack Varcks.
The famous Horse Riding Goat "Alexis." The wonderful African Snake Charmer. Magnificent representative Specimens of Rare Living Wild Animals, Birds, Fishes, Insects, Reptiles and Marine Monsters, and in the department of the Hippodrome and Circus, which is strictly moral and high-toned, there are seen at one time in the Great Double Ring, in the Grand Entree Pageant, One Hundred Performing Equestrians, Acrobats, Gymnasts, Knights, Heralds, Arabs, Mamelukes, Turks, Tartars, Greeks and Ladies in Mediæval Costumes, presenting a scene of royal magnificence never before witnessed.

The performance in the Hippodrome will be interspersed with an unusual variety of acts by a large corps of the most eminent Bareback Riders and Noted Acrobats in the world, including the GREAT MELVILLE AND HIS TALENTED FAMILY.
Every feature will be exhibited as advertised.
The only Exhibition in America recognized and endorsed by both the religious and secular press, and daily visited by eminent clergymen and divines.
The first and only show in the world that uses a DOUBLE CIRCUS RING, and requires a Double Circus Troupe of Performers. Acrobats, Gymnasts, &c.
FREE ADMISSION to all who purchase the Life of P. T. BARNUM, written by himself, nearly 900 pages, 32 full-page engravings, Steel Portrait of the Author; muslin, gilt; reduced from $3.50 to $1.50.

FOR SALE.

Real Estate for Sale.
59 ACRES—Fifty-nine Acres at Mansfield Station, on Pan Handle Railroad, 6 miles from the city. This Farm is well suited for sub-division, has beautiful building sites, and contains 20 acres of coal. Terms easy
160 ACRES—One Hundred and Sixty acres on Frankstown road, 7 miles from East Liberty. This is one of the best Stock Farms in the county, being well watered and well adapted to grass growing. This Farm contains 80 acres of Coal, and is valuable on this account, as the New York and Cleveland Coal Railroad will pass through one end of the Farm. The improvements are a good Frame House of 6 Rooms, Tenant House and Frame Barn. Price $200 per acre; 5 years time.
1 HOUSE—One Brick House, (at Turtle Creek Station, Pennsylvania Central Railroad,) containing 8 rooms, 2 finished attics, with front and back portico; good cellar under the whole house. The lot is 60 feet front by 200 feet in depth, is neatly fenced, planted in shade trees, and has a good frame Stable on rear. Price $6,500, in three payments.
FRAME DWELLING—One Frame Dwelling with half acre Lot, fronting on Aiken avenue, Shady Side. House contains 8 rooms, 2 finished attics, wide halls, has front and back portico, good cellar under the whole house, is well painted and neatly papered throughout; slate roof. Price $9,000; four years time.
2 FRAME DWELLINGS—Two new Frame Dwellings with half acre lot each, at Braddock's Fields, on North side of Pennsylvania Central Railroad. One house contains hall and 7 rooms, good cellar, front and back portico, and is well finished throughout. The other contains 8 rooms, with two finished attics; good dry cellar, front and back portico, and has every modern convenience. Price low; terms easy.
20 HALF ACRE LOTS—Twenty Half Acre Lots at Braddock's on North side of Pennsylvania Central Railroad. These Lots are planted with bearing fruit trees. Price $1,500 each; easy payments.
Inquire of JOHN A. CAROTHERS,
my23 108 Fourth avenue, Pittsburgh, Pa.

FOR SALE.
MAGNIFICENT
